

Solder Board-Component View 6	 A photograph of a rectangular printed circuit board (PCB) populated with various electronic components, including integrated circuits, capacitors, and connectors. The board is positioned horizontally against a blue textured background. A black L-shaped ruler with white millimeter markings is placed around the board for scale. The ruler shows the board is approximately 100mm long and 40mm wide.
Solder Board-Component View 7	 A photograph showing the reverse side of the same PCB as in View 6. It features a large central component, likely a microcontroller or processor, with several smaller components and solder joints visible. The board is placed on the same blue background with the same L-shaped ruler for scale. The ruler indicates the board's dimensions are consistent with View 6.

Solder Board-Component View 8	 A photograph of a small, black, rectangular electronic component with a central gold-colored connector. The component is placed on a blue textured surface above a black ruler with white markings. The ruler shows measurements from 0 to 100 mm on both sides of the component.
Solder Board-Component View 9	 A photograph of the same electronic component from a different angle, showing the underside or a different side. It is placed on the same blue textured surface above the same black ruler with white markings.

Solder Board-Component View 10	 A photograph of a black PCB component, labeled 'View 10', showing its top surface. The component is rectangular with a semi-circular extension on the right side. It features various electronic components including resistors (R53, R54, R55, R56, R60), capacitors (C42, C43, C44, C45, C46, C47, C48, C49, C50, C51, C52, C53, C54, C55, C56, C57, C58, C59, C60, C61, C62, C63, C64, C65, C66, C67, C68, C69, C70, C71, C72, C73, C74, C75, C76, C77, C78, C79, C80, C81, C82, C83, C84, C85, C86, C87, C88, C89, C90, C91, C92, C93, C94, C95, C96, C97, C98, C99, C100), and a connector (J2). A ruler is placed below the component for scale.
Solder Board-Component View 11	 A photograph of the same black PCB component, labeled 'View 11', showing its bottom surface. The component is rectangular with a semi-circular extension on the right side. It features various electronic components including resistors (R53, R54, R55, R56, R60), capacitors (C42, C43, C44, C45, C46, C47, C48, C49, C50, C51, C52, C53, C54, C55, C56, C57, C58, C59, C60, C61, C62, C63, C64, C65, C66, C67, C68, C69, C70, C71, C72, C73, C74, C75, C76, C77, C78, C79, C80, C81, C82, C83, C84, C85, C86, C87, C88, C89, C90, C91, C92, C93, C94, C95, C96, C97, C98, C99, C100), and a connector (J2). A ruler is placed below the component for scale.

Solder Board-Component View 12	 A photograph of a small, square electronic component with a central lens and four gold-colored mounting points. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component positioned between the 10 mm and 30 mm marks.
Solder Board-Component View 13	 A photograph of the same electronic component from a different angle, showing the underside. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component positioned between the 10 mm and 30 mm marks.
