FCC Warning Statement

-FCC Radiation Exposure Statement: The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located for operating in conjunction with any other antenna or transmitter.

-Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

-This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

-This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

QUALIFIED CERTIFICATE

QC PASS

Security Warning:

Before using and operating the equipment, please read and follow the following precautions to ensure stable equipment performance and avoid dangerous or illegal situations.

- Please use and store this equipment and its accessories within the temperature range of 0 °C to 40 °C. When the temperature is too high or too low, it may cause equipment failure.
- During the use of the device, be sure to maintain a distance of at least 20 centimeters between the human body and the device antenna.
- Only accessories approved by the equipment manufacturer and compatible with this model of equipment can be used. If other types of accessories are used, it may violate the warranty terms of this device and relevant regulations of the country where the device is located, and may result in safety incidents. If you need to obtain approved accessories, please contact the authorized service center.
- The power socket should be installed near the equipment and easily accessible.
- When not using this device, please disconnect the power supply from the device and unplug the power plug from the power outlet.
- Please treat this device and its accessories as regular household waste.
- Please comply with local regulations regarding the handling of this device and its accessories, and support recycling actions.

Hazardous Substances Table

Part Name	Hazardous Substances or element									
	Pb	Hg	Cd	Cr(VI)	Br	PBBs	PBDEs	DEP	BBP	DEHP
PCBA	●	○	○	○	○	○	○	○	○	○
Cable assembly	○	○	○	○	○	○	○	○	○	○
Main part	○	○	○	○	○	○	○	○	○	○

○: It indicates that content of toxic and hazardous substance in all homogeneous material are less than specified limit by Directive2011/65/EU (RoHS)

●: It indicates that at least one content of toxic and hazardous substance in all homogeneous material is beyond specified limit by Directive2011/65/EU (RoHS)

This table shows the toxic and hazardous substance when manufacture this device, hazardous substance information is based on information from supplier as well as internal inspection. In some part, hazardous substance cannot be replaced with current technologies, but we are always doing its best to improve the quality of the product.

The power socket should be installed near the equipment and easily accessible.
