Just Enjoy Your Life

LED Bluetooth Bathroom Mirror

- Anti-fog on/off button control:** In the power-on state, short press to turn on the defogger(the button is white color),short press again to turn off the defogger (the button has no color).
- LED color temperature switching and on/off control:** In the power-on state, first short press to turn on the cool white color, second short press to turn on the warm color, third short press to turn on the cool white color and warm color at the same time, fourth short press to turn off the light.
- LED brightness dimming control:** In the power-on state, long press to brighten or dim until the desired brightness(from 10% to 100%), three colors(cool white and warm and warm-white) can be long pressed to adjust the brightness steplessly.
- Support wall switch control:** Wall switch can directly control the light ON/OFF as this mirror equipped with a memory touch sensor, when you turn off the light by wall switch, it will remembers last state (temperature color and brightness) and when you turn on the wall switch again, it's the same remember state as last. Note: when you turn off the light by wall switch must keep the light is on state, because once you turn off the light by the touch button on the mirror, you can't turn on the light directly by the wall switch, can only turn on by the button on the mirror.

Warm Tips: Daily Maintenance

- Soft cloth or feathers dust off the mirror surface.**
- Gently scrub the mirror surface with a clean, soft, damp cloth.**
- If the mirror is stained or not bright enough, use a glass cleaner to spray on the mirror and then wipe it with a newspaper.**
- Clean stubborn stains can be wiped with toothpaste or 30% cleansing diluent.**

FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
