

VIAIM Nano+ 说明书 (风琴页)

85mm

Quick Start Guide
VIAIM Nano+
Model/HVIN:XF-A01

Download the VIAIM App

On your mobile device, download the VIAIM app and follow the app instructions.

Select the appropriate earbuds

The earbuds are equipped with four pairs of earbuds, please select the appropriate earbuds best fit for you and perform a fitting test to obtain better sound quality and noise cancellation effect.

* Operation Method: Connect to VIAIM App - Settings - Earfit Test - Start Test.

Switch noise cancellation mode

Tap the left earbud touch area twice quickly to switch among noise cancellation modes. Three modes are supported: Noise Cancellation, Normal and Transparency. If you want to cycle between two modes only, you can set it in the App.

* Operation Method: Connect to VIAIM App - Settings - Noise Cancellation Mode, then tap the desired mode.

Enter pairing status

Connect the earbuds

Turn on your mobile phone's Bluetooth, find VIAIM Nano+ in the Bluetooth list and connect.

Battery charging

Use the equipped USB-C charging cable or Qi certified wireless charger for charging.

FlashRecord

Long press on the left/right earbud touch area, you can start recording when you hear the prompt tone, long press again to stop recording. After the recording is finished, transfer the recording to the App, and then it can be converted to text.

* Operation Method: Connect VIAIM App - Records - Start/Stop Recording - Download to Mobile Phone.

Touch operation

Recording with App

Connect the earbuds, start the App, click on the recording button at the bottom, select recording mode, and then start recording and converting it to text.

Recording mode

VIAIM AI is an AI-generated meeting and office efficiency tool, which is based on linguistic text for intelligent processing, editing and management to meet daily meeting and office needs.

VIAIM AI - To-do list

By intelligently analyzing the content of records, VIAIM AI can automatically extract key tasks from the records and generate To-do list.

VIAIM AI - Abstract and summary

By intelligently analyzing the content of the record, VIAIM AI is also able to automatically extract the key points from the record and generate a Abstract and summary.

Hearing Safety

To avoid hearing damage, limit the time you use headphones at high volume and set the audio volume to a safe level. The louder the volume, the shorter the safe listening time is.

Other Safety Instructions

- Keep the buds away from children and pets to avoid accidental ingestion.
- When not in use, store the buds in the charging case with the charging lid closed, and keep them out of the reach of children and pets.
- Do NOT allow children to use the buds.
- Clean the buds and charging case only with a dry cloth.
- Only use accessories/accessories specified by the manufacturer.

When using this product, basic precautions should always be followed, including the following:

- Read all the instructions before using the charging case.

- To reduce the risk of injury, close supervision is necessary when using the charging case near children.
- Do not expose the charging case to water, rain, liquids or snow.
- Use of a power supply or charger not recommended or sold by a reliable manufacturer may result in a risk of damage to the product, fire or injury to persons.
- Do not use the charging case above its output rating. Overload capacity above the rating may result in damage to the product, fire risk or injury to persons.
- Do not use a charging case that is damaged or modified. Damaged or modified batteries may exhibit unpredictable behavior resulting in damage to the product, fire, explosion or risk of injury.
- Do not disassemble the charging case. Incorrect reassembly may result in a risk of damage to the product, or fire or injury to persons.
- Do not open, crush or expose the product to fire, direct sunlight or excessive temperature. Please note that the ideal operating temperature is 0-35°C degrees.

This product contains magnetic material. Consult your physician or whether this might affect your respiratory medical device.

General Information

Operating and storage temperatures and humidity

- Store in a place where the temperature is between -20°C and 45°C.
- Operate in a place where the temperature is between 0°C and 35°C.
- Battery life may be shorter in high or low-temperature conditions.

Technical Data

Earbuds
Talk time: up to 12 hours listening time
Take time: up to 6 hours
Rechargeable lithium ion battery: 60mAh
Bluetooth version: 5.2
Supported audio codec: SBC, AAC
Operating range: up to 10 meters
Charging case
Rechargeable lithium ion battery: 500mAh

Note

Specifications are subject to change without notice. Actual battery life and charging time may vary depending on usage and settings.

Notices

For relevant RoHS/REACH standards please see our packaging or refer to our website www.viaim.ai.

Disposal and recycling information

This crossed-out wheeled-bin symbol on your product, battery, literature or packaging reminds you that all electronic products and batteries must be taken to separate waste collection points at the end of their working lives; they must not be disposed of in the normal waste stream with household garbage. It is the responsibility of the user to dispose of the equipment using a designated collection point or service for separate recycling of waste electrical and electronic equipment (WEEE) and batteries according to local laws.

Proper collection and recycling of your equipment helps ensure electrical and electronic equipment (EEE) waste is recycled in a manner that conserves valuable materials and protects human health and the environment, against handling, accidental damage, damage, and/or improper recycling at the end of its life may be harmful to health and environment. For more information about where and how to drop off your EEE waste, please contact your local authorities, retailer or household waste disposal service.

Reduction of hazardous substances

This product is RoHS and REACH compliant.

RFCE Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates noise and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure condition without restriction.

IC Warning: This device complies with Industry Canada license-exempt RSSs. Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.
