Detailed FAQ

- Q: What should I do if there is no response when I plug in the product?
A: 1. Pull out the product, at first check the original car's wired Apple CarPlay can be used normally;
2. Click Settings on your original car system - Click "restore factory settings";
3. Plug the cable of product into the USB port of the car (the sameport that used to connect the CarPlay with a date cable);
4. Connect the Type-C end of the cable to the product and wait for a while (the first identification may be slower);
5. For the first use, connect the iPhone to the product with the data cable to improve product compatibility.

- Q: Can't connect automatically.
A: 1. Please turn on your phone's Bluetooth and WALN, and make sure both Bluetooth and WALN do not connect to other devices. Neglect the original car Bluetooth;
2. (1) Connect the adapter's WiFi signal with your phone (password: 12345678);
(2) Open the iPhone browser: Safari and enter the URL :192.168.50.2;
(3) Adjust the "start delay" to "20" and turn on the "Auto Connect".

- Q: When stuck in the connection state, and it keeps connecting, what should I do?
A: 1. Please click settings - clear pair list, and ignore the Bluetooth pairing record on the phone, then restart your phone;
2. Restore the factory settings of the original car.

- Q: My iPhone can identify the product Bluetooth/WiFi, but my car does not enter the connection page.
A: 1. Reset the box;
2. Restore the factory settings of your original car system;
3. Replace a data cable for connection.

- Q: WiFi error and BT error.
A: Contact the store customer service for version update.

- Q: What should I do if I can't hear others on the phone?
A: Please select CarPlay from Audio in your phone call interface.

- Q: What should I do if I encounter heat problems during using product?
A: 1. It is best to use the original date cable of the product, thin wire will cause heat problem.
2. Please do not expose to direct sunlight or non-ventilation.

After-sales service

Dear user, thank you for using this product. In order to protect your rights and interests, we will provide you with high-quality after-sales service. You can enjoy one-year warranty service from the date of purchase (under normal use, the product itself is a failure caused by quality problems). Please keep this card properly, as the necessary proof of warranty service, the company reserves the right to interpret the after-sales service of this product.

FCC Warning

This device complies with part 15 of the FCC Rules, Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
