

INSTRUCTION MANUAL

*Please read the product manual carefully before you use the product, and keep it properly.

● Product Function Introduction

By connecting to your car's USB/Type-C port, your factory wired CarPlay can be upgraded to wireless CarPlay, and it can be automatically connected when you get in the car. Let users say goodbye to the shackles of data cable.

● Connection Diagram

● Product Specifications

- Power input: $5V \pm 0.2V = 1.0A$
- Power consumption: 0.75W
- Compatible resolution: adaptive

● Supported Mobile Phones

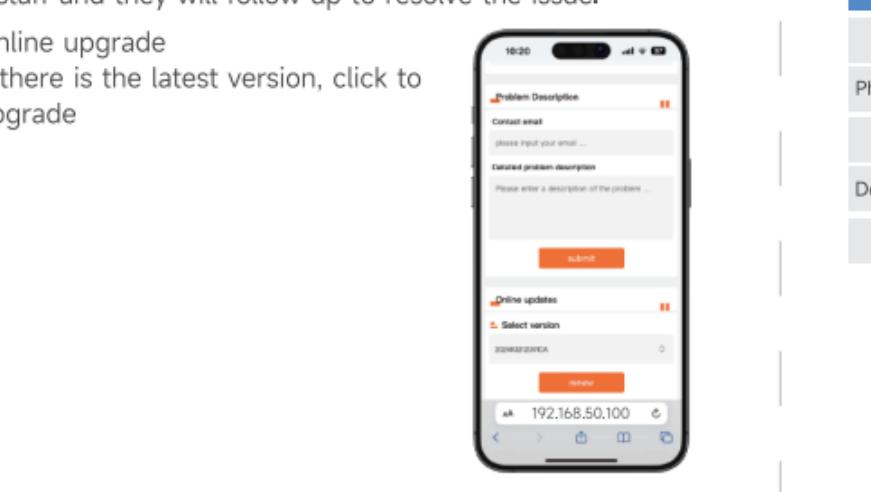

- iPhone: iPhone 6 and above, iOS 10 and above version

● LED Light Description

- Red status: Power indicator
- Green status: Successfully connected

(Figure1)

● Feedback Problem/Update Version Online

- Enter the background step

1. Insert the product into the car's USB/Type-C port
2. iPhone connects to the product's WiFi: **VehiConn_xxx** (password: 12345678)

3. Enter 192.168.50.100 in iPhone browser: Safari (Note: please make sure your iPhone is connected to the adapter's network)

● Problem Description

1. Enter your car brand, model, year, problems encountered
2. After clicking submit, copy the feedback code to the sales staff and they will follow up to resolve the issue.

● Online upgrade

- If there is the latest version, click to upgrade

● After-sales service

- Enter the background step

1. Insert the product into the car's USB/Type-C port

2. iPhone connects to the product's WiFi: **VehiConn_xxx** (password: 12345678)

3. Enter 192.168.50.100 in iPhone browser: Safari

(Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.)

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Operation of this device in the band 5.15-5.25GHz is restricted to indoor use only.
