

80g书纸双面印刷

尺寸: 84.2*124.2mm

SPECIFICATION

Wireless: V 5.4
 Sensivity: 88dB
 Working range: 10m
 Speaker driver: 10mm
 Impedance: 32Ω
 Frequency: 20Hz - 20kHz
 Battery earbuds: 30 mAh

Charging case: 200 mAh
 Standby time: 150 hours
 Charge time: 1.5 hours
 Working time: 5 hours
 Touch control - Type-C connector
 $P_{RF}: 6 \text{ mW max}$
 $f: 2402 \div 2480 \text{ MHz}$

UK USER MANUAL

Charging the earbuds

Insert the earbuds into the charging case, the LED will light up. When charging is complete, it will turn off.

Charging the case

Charging via cable

Plug the Type C connector of the supplied cable into the Type C port on the case and the other end into a USB port.

The charging bin is charged, and the TYPE-C charging is inserted. When the charging bin is charged, the LED light flashes continuously. The LED light is always on after being fully charged.

Turning on the earbuds

Take the earbuds out of the charging case, they will automatically turn on and pair with each other. Or press both MLF buttons on the earbuds for 2 seconds.

Turning off the earbuds

When you put the TWS earphones into the case, they will turn off automatically. Alternatively, press the MLF button on one of the earbuds for 5 seconds.

Pairing with devices

1. Take the earbuds out of the charging case: they will turn on and pair with each other automatically
2. Turn on Bluetooth on the device and search for "MD-05" in the list of available devices, then select it.
3. After the connection is successful, start enjoying the music.

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause

harmful interference to radio or television reception, which can be determined by

turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. The device can be used in portable exposure condition without restriction.
