Regulatory Information

Regulatory information can be found on our website.

According To Directive 2014/53/EU, The Bands And Power Are As Follows:

GSM/GPRS 900: 32.35 dBm; GSM/GPRS 1800: 30.03 dBm; WCDMA Band 1: 21.43 dBm; WCDMA Band 8: 23.15 dBm; LTE Band 1/3/7/18/20/28/40/41: 24.17 dBm; BT(BDR+EDR): 6.66 dBm EIRP; BT(LE): -0.13 dBm EIRP; Wi-Fi 2.4 GHz: 14.52 dBm EIRP; Wi-Fi 5 GHz: 12.45 dBm EIRP; GPS: 1.57542 GHz.

Body Worn Operation

The device complies with RF specification .SAR standard, Head: (limit 2 W/kg) 0.437 W/kg. Body worn: (limit 2 W/kg) 1.594W/kg. Hotspot: (limit 2 W/kg) 1.594 W/kg. Limb: (limit 4 W/kg) 3.336W/kg. Meet CE certification standards.

⚠ Warning

Follow the warning information provided below to prevent incidents such as fire or explosion.

Do not turn on or use the device when the battery compartment is exposed.

The tablet should be at least 15 cm away from any medical implant or rhythm adjuster and never put the device in your coat pocket.

Do not expose the device and other batteries together with the high temperatures or heat-generating equipment such as sunlight, heaters, microwave ovens, ovens or water heaters. Overheating of the battery can cause an explosion.

When charging is complete or not charging, disconnect the charger from the device and unplug the charger from the power outlet.

If the device is equipped with a non-removable battery, do not replace the battery yourself to avoid damaging the battery or device.

Use of an unapproved or incompatible power source, charger or battery may cause fire, explosion or other hazards.

Do not disassemble or reset the battery, insert other objects, immerse in water or other liquids to avoid battery leakage, overheating, fire or explosion.

Do not drop, crush, scratch or puncture the battery to avoid subjecting the battery to excessive external pressure, resulting in internal short-circuit and overheating of the battery.

Possibly Keep the device away from the belly of pregnant women and the lower abdomen of adolescents.

For Children and young people, please make sensible use of the device, for example by avoiding night-time communication and limiting the frequency and duration of calls.

The company does not bear the responsibility for accidents caused by non-standard related charging equipment.

To prevent possible hearing damage when using a headset, do not listen to sound at high volume for long periods.

This marking on the product, accessories or literature indicates that the product and its electronic accessories (e.g. charger, headset, USB cable) should not be disposed of with other household waste.

15.19 Labeling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and(2) this device must accept any interference received, including interference that may cause undesired operation.

15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Absorption Rate (SAR) information:

This mobile phone meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. This device was tested for typical body-worn operations with the back of the handset kept 1.0cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 1.0cm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

Body-worn Operation

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 1.0 cm must be maintained between the user's body and the handset,including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.
