

Appendix C_ Test Setup

Radiated Emissions for 30MHz~1GHz	Radiated Emissions for 1GHz~18GHz
 A photograph of a white, omnidirectional antenna mounted on a grey rectangular test fixture. The fixture is positioned in the center of a large, rectangular anechoic chamber. The chamber walls are covered with white, rectangular acoustic absorption panels arranged in a grid pattern. The floor is a dark grey concrete surface.	 A photograph of the same white antenna and grey fixture in the same anechoic chamber. The fixture is now positioned on a white rectangular test fixture, which is placed on a grey rectangular base. The chamber walls and floor are the same as the first image.
Conducted for LTE	/
