

User Manual

FCC ID: 2BKEH-DGTYC

BEFORE YOU BEGIN

1. When you are ready to start, make sure that you have plenty of space and a clean dry area for assembly. Always try to assemble the product as close as possible to the intended location.
2. Remove all plastic bags and dispose of safely.
3. Remove the product from the packing, take care not to damage or twist the wires.
4. Ensure that the cables are fully unwound before use.
5. Check the set before use for loose or damaged wiring and that all the bulbs are secured. If you are in doubt do not use the set.

WARNING

- Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.
- Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

- The device has been evaluated to meet general RF exposure requirement.
- The device can be used in portable exposure condition without restriction.
- This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
