

Product Name: Wireless Mouse Pad

Product weight: Net weight 760 grams

Intelligent output power: 15W charging/10W charging/7.5W charging/5W charging

Product material: ABS environmentally friendly material+rubber+optical fiber

Transmission distance:  $\leq 10\text{MM}$

Input voltage: 5V/2A, 9V/1.67A

Product dimensions: Height 4MM \* Width 300MM \* Length 800MM

Output power: 15W, 10W, 7.5W, 5W

Product Color: Black, Colorful

Charging frequency: 110.5kHz-205kHz

Conversion rate:  $\geq 80\%$

Compatible devices: All Qi standard wireless charging devices

Selling point:

Inductive touch control for RGB light color output, plug and play, just lightly press the fingerprint pattern RGB mouse pad to switch colors

Seven monochrome constant brightness modes+three scrolling light modes

Flowing Light Horse Racing - Colorful Breath - Colorful Horse Racing - Red Green Blue Purple Blue Yellow White

Long press the sensing touch for 5 seconds to turn off the lights

Wireless fast charging, low temperature throughout the entire process, does not damage the device or cause overheating

Intelligent recognition 15W, 10W, 7.5W (Apple phone fast charging), 5W

Ultra long sensing distance  $\leq 10\text{MM}$

The latest fifth generation pure copper combined version with independent large coils has faster charging speed, 360 charging induction without blind spots, and does not heat up at low temperatures

Overcharge protection, overcurrent protection, overvoltage protection, over power protection, temperature protection, FOD foreign object detection, over discharge protection

It's both a wireless charger and a mouse pad

It can charge, watch TV shows, chat, and work without any mistakes. It can be easily charged with just a gentle release, and the operation is simple and convenient

Simple and atmospheric appearance

Charging speed: IP8 takes 2 hours to fully charge IPX, 3 hours and 10 minutes to fully charge Samsung S8, 2 hours and 35 minutes to fully charge

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device,

pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

**FCC Radiation Exposure Statement:**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, Human proximity to the antenna shall not be less than 20cm (8 inches) during normal operation.
