Declaration Letter for Low Power Indoor Access Points (6ID)

Date: 2025-03-11

FEDERAL COMMUNICATIONS COMMISSIONS
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

Subject: U-NII 6GHz Attestation per FCC KDB 987594 D01 v03
Product Name: Motorola MQ20 WIFI 6E TRI-BAND MESH ROUTER
Model number: MQ20
FCC ID: 2BKIJMQ20

To Whom It May Concern:

We, Premier Logitech, LLC, attest that this device under FCC ID: 2BKIJMQ20 complies with device protocol requirements and operational restrictions for Indoor Access Point Devices (6ID).

- a. The method used by this indoor access point to control the associated client/subordinate power control is as follows:
There will be a corresponding TX power field in the Beacon frame of this device. Different models and different frequency bands will have an upper limit of the maximum TX index, and the maximum rate will vary by different countries, frequency bands, and MCS rates.
When a client/subordinate is associated to this device, it will respond based on the parameters configured by the device.
- b. This Low-power Indoor Access Point operating in the 5.925-7.125 GHz band shall be supplied power from a wired connection, have an integrated antenna, not be battery-powered, and not have a weatherized enclosure.
- c. We acknowledge this device is subject to and in full compliance with the device restrictions listed below. All users are notified of these restrictions through the user manual.
 - This device's operation will not be allowed on oil platforms, cars, trains, boats, and aircraft, except that operation of this device is permitted in large aircraft while flying above 10,000 feet only in the 5.925-6.425 GHz band.
 - This device is prohibited for control of or communications with unmanned aircraft systems, including drones.

If you should have any questions regarding this declaration, please do not hesitate to contact us, thank you!

Sincerely Yours,

Signature:
