DIRECTIONAL
KEY**

Equipped
with a USB lithium
battery charging cable.

3.7V Li-ion

FUNCTION KEY 1:

Short press to switch the bumper car sound effects, with two options:
a. Wave sound effect, which can interfere with the opponent's operation;
b. Switch to background music to enhance the gaming atmosphere.

*For the spray version: When playing (a) wave music, smoke will be emitted from the back (for 60 seconds); when switched to (b) background music, the spraying will be paused.

FUNCTION KEY 2:

Short press: Enter the vehicle demonstration function;
Long press: Set the entire vehicle operation to mute, and press again to re-enable the sound effects.

FUNCTION KEY 3:

By colliding with the vehicle, this button is triggered first for the opponent, which can eject the opponent's driver figurine, and the side that does not eject wins!

2.4G ANTENNA:

The entire series is equipped with a 2.4G transmitter and receiver, supporting multiple people playing against each other simultaneously.

INDICATOR LIGHT:

Provides timely feedback on each remote control operation through a red light.

*Spray Edition Water Tank Filling Port:

Open the car's rear cover and use the included water bottle to fill the tank with pure water, ready for spraying at any time.

Note: After the remote control car (or controller) is powered off, it needs to be re-matched. After re-installing the batteries, it can be matched with the nearest remote controller (or car) that has no signal.

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
