

GLORRB

User Manual (1.0)

Quick Start Guide

Congratulations - Welcome to the GLORB experience!
Let's dive into the essentials to get you up and running:

- 1 Unpack the box and check for any missing or damaged items.
- 2 Place or hang the GLORB using the cable hook or table stand/ceiling cup.
- 3 Plug the adapter into an outlet.

Pair Your GLORB with the SNRGY App

glorb.me/app

- 1 Scan the QR code to download the Native WLED App (or find it on the App Store or Google Play)
- 2 Enable WiFi on your smartphone.
- 3 Open the app and let it automatically connect to the GLORB.
- 4 Follow the tutorial on how to use the app

Cable hook set up

Installing your new lamp involves a few simple steps to ensure it is securely mounted and safely connected. In this guide, we will walk you through the process of assembling and installing your lamp, from threading the cable through the necessary components to securing the fixture flush against the ceiling. Follow these step-by-step instructions carefully to ensure a safe and successful installation.

- 1 Thread the pentagon-shaped "nut" onto the cable (in the correct direction).
- 2 Insert the cable through the bracket (from the outside to the inside).
- 3 Position the "cord grip" plastic piece on the cable at the correct height.
- 4 Click the two plastic screw parts onto the cable, "inside" the bracket.
- 5 Push the plastic screws through so that they stick out of the bracket, then tighten the plastic nut.
- 6 With the lamp hanging on a hook, slide the bracket up until it is flush with the ceiling.

UP

Safety Information

Before using your GLORB, please read these instructions carefully.

The GLORB can handle some water exposure, but keep the power supply and connections dry to avoid damage.

Remember to handle the GLORB with care, as it is a delicate product.

- Use only the provided power adapter or a 5V, 3A USB-C power source.
- Install the GLORB indoors only.
- Disassembly or modification voids the warranty.
- Do not use if the power cord or plug is damaged.
- Keep away from major heat sources.

12-Month Limited Warranty

Your GLORB lamp has a one-year limited warranty for defects.
Keep your receipt for warranty claims.

Light source	80 RGB LEDs
Light output	Ca 700 lumen
Power source	5v USB-C adapter
Power consumption	12W Max 3-4W Animation <1W Standby
Connectivity	WiFi & Bluetooth
Size	250mm / 9.84" Ø
Weight	Ca 900g / 2 lbs
Mounting	Standing or hanging
Material	ABS and PC plastic
LED lifetime	Estimated 50.000h

Troubleshooting

Cannot connect to Bluetooth.	Restart Bluetooth
Glorb does not turn on	Check power connection and outlet
LED strips flicker	Ensure proper installation and contact
Remote control not working	Replace remote control batteries
Connection Issues	Ensure WiFi and Bluetooth are enabled. Restart the app and GLORB.
App Crashes:	Update the app and your device's OS.

Cleaning:

Use a soft, dry cloth to clean the surface.

FCC Warning:

This device complies with part 15 of the FCC rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement :

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

CE Declaration of Conformity:

This product conforms to the essential requirements of the relevant European health, safety, and environmental protection legislation. For more detailed information and the full Declaration of Conformity, please contact the manufacturer.
