

# Operating Instruction of Car Bluetooth Player

## Features:

This product adopts FM full frequency transmission technology, and can directly read audio files in the mobile phone's Bluetooth/TF card/U disk. This product supports Bluetooth audio playback and Bluetooth hands-free calling. This product supports lossless high-frequency decoding; this product is a multi-function car MP3 that integrates the battery voltage health warning of the locomotive and the high-current car charger.

- 1: Support Bluetooth music/TF card/U disk playback, and Bluetooth hands-free call;
- 2: Dual USB charging 5V 1A/5V 1.5A/5V 3.1A (some models are equipped with Type C charging/QC3.0/5W, 18W fast charging);
- 3: LED digital screen display, screen points, song number and working status information can be displayed;
- 4: Power-off memory;
- 5: EQ (press One Key to improve 8 kinds of sound quality) (some models)
- 6: Colorful (7+1) lighting mode (some models)

## Basic FM Operation:

- 1: Insert the player into the car cigarette lighter, the screen lights up after power on, and the car battery voltage and FM screen points of 88.1 or 107.9MHz are displayed cyclically.
- 2: Set the transmitting frequency of the player, try to avoid the radio frequency with strong FM signal, turn on the car radio, and adjust the car radio screen point and the car MP3 screen point to the same; at this moment you can hear the music of your mobile phone via Bluetooth/TF/U disk from the car horn.

## Key Function Use:

- 1: Rotate left and right, the Key  can adjust the volume, press and hold the Key  for 3 seconds, release it, and switch to a mode after a beep. Long press for 5 seconds, when the display point flashes, release the left and right rotation, Key  can adjust the frequency to make it the same as the frequency on the car. (For the Key Version, when the screen point is flashing, you need to press the Key  for frequency debugging, and the Key Reset needs to be rotated 90 degrees left and right for screen point debugging)
- 2: Press the Key  to select the previous and next song (for the Key Version, long press to adjust the volume)
- 3: Press the Key EQ once to change a sound quality. (5 types of sound quality are available; only models with EQ provide this function)
- 4: Press the Key  once to change a light mode, long press for 2 seconds and release it to cycle 5-7 light modes, press and hold for 5 seconds to turn off the light. When off, press it once to turn on the light. (This function is only available on the lantern model)
- 5: For some models with Key M, press to switch the Bluetooth/USB/TF card mode. For some models with the FM button, press the screen point on the display to flash, and

then rotate the Key  or press the Key  to debug the car radio screen.

## **Bluetooth Connection:**

- 1: Search for the Bluetooth name BSXY-8 on the mobile phone, click the link to pair successfully, and you can listen to music or make calls.
- 2: Provide the function of automatically reporting the phone number of incoming calls.
- 3: When a call comes in, press the Key  to answer the call with one-key hands-free, press the Key  again to hang up the call, and double-click the Key  to call back.

## **U Disk/TF Card Use:**

- 1: Insert the U disk or TF card, the songs of the U disk or TF card are automatically played in the car.

## **Technical Parameters:**

- 1: Operating voltage: 12-24V
- 2: USB output: 5V 1A/5V 3A (some models QC3.0/5W/18W fast charge Type C)
- 3: Play format: MP3 WMA SNR>60DB
- 4: Bluetooth version: 5.0
- 5: Bluetooth transmission distance: 0-10 meters
- 7: Bluetooth conversation distance: 0.5-2 meters
- 8: FM frequency: 88.1-107.9MHz

**Product List: outer packaging, machine, manual, 3.5 audio cable, remote control (some models with sub-functions).**

### **About the product Information:**

**Product name: Car charger**

**Model name: Q5**

## FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
