

Product Information: Network converter

Product Model: ZMT01

color: black

product material: plastic + Metal Product

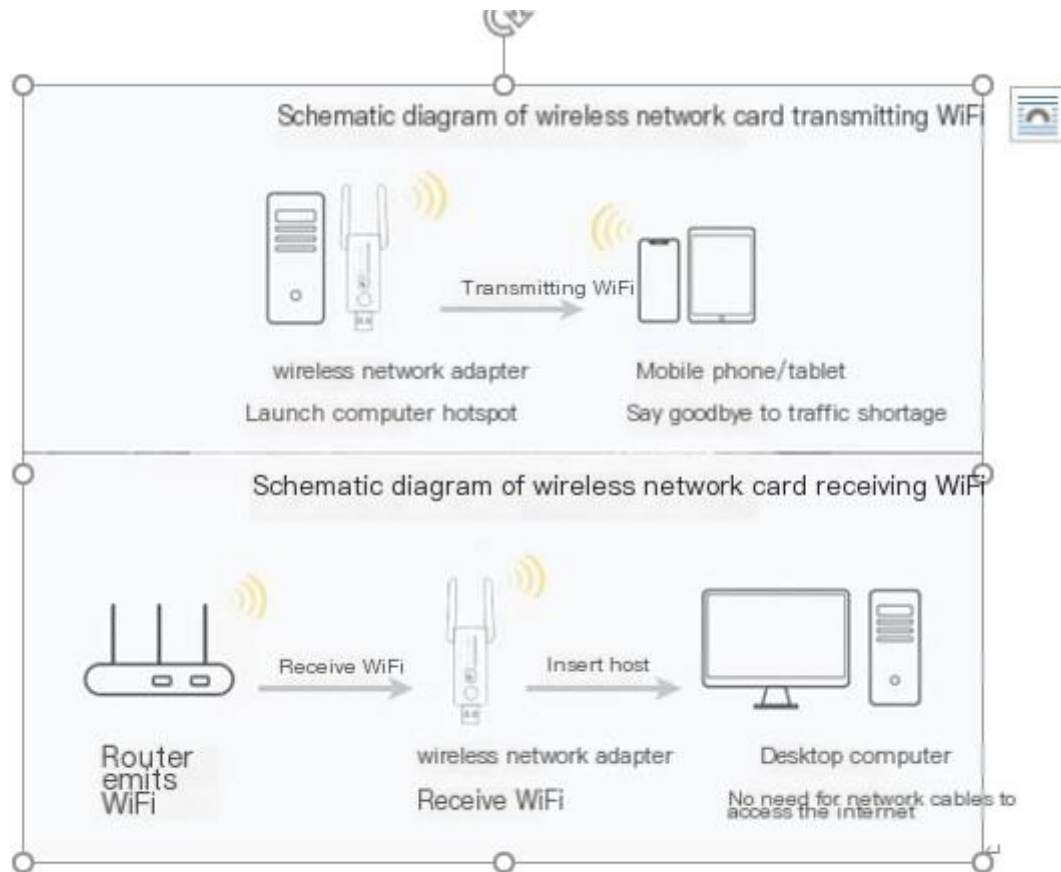

Chip: RTL8811

application system: Windows Vista/XP/2000/7/8/10, Linux, Mac OS

product accessories: 1 * 1200M Network Card 1 * CD

This card uses 8811 mainstream wireless chip, transmission rate up to 1200Mbps, with higher wireless bandwidth, so that the local area network data transmission more efficient, can effectively reduce network delays, so that voice and video, network games, online video-on-demand more fluid, external smart antenna.

Adopting the selected 11N wireless technology signal multi-channel transceiver can greatly enhance its wireless reception capability and enhance the stability of wireless signal: automatic detection network and automatic transfer rate; Performance doubled to enhance the analog AP function, easy to set up Wireless LAN, support

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
