times continuously, the device emits a sound. At this time,
factory reset is completed.

5. Device turns off:
When device is in turned on mode, take the battery out, the
device will turn off.

FAQ:

1. When can the device be located?
When an item is separated from its owner for a period of time, it
can be found by other Apple devices that are part of the Find
My network, and the owner can start to get the location of the
device.

2.How is the device designed to discourage unwanted tracking?
if any Find My network accessory separated from its owner is
seen moving with you over time, you'll be notified in one of two
ways:
a. if you have an iPhone, iPad, or iPod touch, Find My will send
a notication to your Apple device. This feature is available on
iOS or iPadOS 14.5 or later.

b.if you don't have an iOS device or a smartphone, a Find My
network accessory that isn't with its owner for a period of time
will emit a sound when it's moved. These features were created
specially to discourage people from trying to track you without
your knowledge

3.How is my privacy protected?
Only you can see where your item is. Your location data and
history are never stored on the item itself. Devices that relay the
location of your item also stay anonymous, and that location
data is encrypted every step of the way. So not even Apple or
Findale knows the location of your device or the identity of the
device that helps find it.

4. Battery Specifications
Replaceable battery capacity: CR2032 3V 220mAh

5. What is the Find My network? And how does it work?
The Apple Find My network provides an easy, secure way to
locate compatible personal items on a map using the Find My
app on your iPhone, iPad, ipod touch, Mac, or the Find Items
app on Apple Watch. Simply pair your compatible product with
the Apple Find My app to view it right alongside your Apple
devices. If your item ever goes missing, you can put it in Lost
Mode to display a message and contact information to anyone
who might find it. The Find My network is encrypted and
anonymous, so no one else, not even Apple or Findale, can
view its location.

European Union-Disposal Information
The symbol above means that according to local laws and
regulations your product and/or its battery shall be disposed of
separately from household waste. When this product reaches

its end of life, take it to a collection point designated
by local authorities. The separate collection and
recycling of your product and/or its battery at the
time of disposal will help conserve natural resources
and ensure that it is recycled in a manner that
protects human health and the environment.
