## 无线充说明书

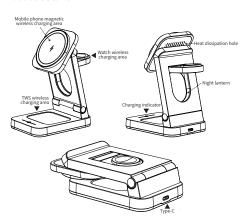

# 尺寸: 284(D)\*90(H) mm

## **Product Introduction**

Thank you for purchasing our product 4-IN-1 Wireless Charger. It uses high-end fast wireless charging chip and has a luxurious and compact design. It is compatible with any mobile phone that meets the QI standard. Perfectly compatible with iPhone 12 and above, other mobile phones with wireless charging function need to be used with a magnetic phone case, effectively saving more time and improving your charging experience.

### **Product Outline**

#### 1. Devices with built-in quick charge/normal charge wireless receiver 2. Devices with outer-face wireless charging receiver. 3. Devices with wireless charging receiver in its protection case

#### Note: All devices must be Qi standard.

**Applicable Devices** 

Connect the wireless charger to an AC power source via a power adapter.
 After turning it on, the green light will stay on and it will enter standby mode.

2. When the mobile phone or TWS is charged, the corresponding indicator lights are blinking in the blue light. After full charging, the indicator light is often on. The indicator light does not change when the watch is charged. (Frequent flashing of red and blue indicators indicates foreign object detection) (Note: If the watch has no electricity, charging will be slower, it is recommended that the watch is close to 10% please charge, when there is no electricity, charging is slower, you may need to wait for 1 hour, you need to have patience!)

3.The touch switch of the night light is in the middle of the mobile phone indicator and the headset indicator. Click the switch in a single click, turn on the light, click the switch again, and the lights go out. Long press the switch and the lights gradually brighten or darkens.
