6. LED Indicator

Power LED

When Powered On: Power indicator 4 white lights from left to right: Low power to full power. There is a red light at the first light position. When the power is low, the red light flashes.

Sound Mode

Blue Light: Indoor EQ  
White Light: Outdoor EQ

BT Mode

Blue Light: BT Status  
White Light: TWS Status

1. Power Indicator: White light

Power indicator:  
A. Four white lights indicate power capacity.  
B. During charging, the current power light flashes. For example, if the battery is at 75%, Light 1 (25%) and Light 2 (50%) are on, Light 3 (75%) is flashing, and light 4 (100%) is off.  
C. All four lights are on when fully charged.

2. Bluetooth + TWS Indicator: Blue Light, White Light

BT search status: blue light flashes.  
BT connected: blue light is solid.

3. EQ Indicator Lights

A blue light indicates full-frequency EQ or indoor mode.  
A white light indicates vocal EQ or outdoor mode.

4. RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

-05-

7. Bluetooth Pairing

1. After powering on, the speaker automatically reconnects to the last connected device.

2. Bluetooth is the default mode when the speaker is turned on. Enable Bluetooth on your mobile device, search for "GEARit Speaker," and tap to connect.

3. Press the BT button to disconnect, you'll hear a prompt tone.

8. TWS Pairing

1. Ensure both speakers are not connected to any devices before pairing.

2. Power on both speakers. Press and hold the BT button on either speaker to enter TWS mode. This speaker becomes the main unit (left channel), so place it on your left.

3. Once TWS pairing is done, the main speaker's white light will flash quickly, and the secondary speaker's white light will flash slowly. The secondary speaker is the right channel, so place it on your right.

4. Search for "GEARit Speaker" in your phone's Bluetooth settings and connect to enjoy the stereo sound.

9. Modes and Safety

Aux Mode/MicroSD card Mode/USB Drive Mode

In addition to Bluetooth mode, playback is also available via Aux, MicroSD card, and USB drive modes.

Automatic Power Off

The speaker will automatically turn off after 30 minutes of inactivity.

Safety Reminder

1. To protect your hearing, please avoid setting the volume too high.

2. It is not recommended for children under the age of 3 to use this product alone.

3. Please keep away from fire or high-temperature environments to prevent product malfunction or damage.

GEARit LIMITED WARRANTY

Warranty Coverage:

We stand behind our products with confidence, offering warranties designed to give you peace of mind and a worry-free experience. Our commitment covers most GEARit products with specific warranty periods based on product type such as cables, cases, wall chargers, and more. Either way, you're protected from defects in materials and workmanship.

\*Speakers (Bluetooth Products): 24 Months

30-Day Money-Back Guarantee:

You may return undamaged products within 30 days for a full refund. Products must include all accessories and original packaging. Shipping costs for non-quality-related returns are the responsibility of the buyer.

Replacement Warranty:

If a defect arises within the warranty period, GEARit will repair, replace, or issue a credit for the product. Repaired or replacement products are covered for 90 days or the remainder of the original warranty, whichever is longer.

FCC Compliance Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
  
Reorient or relocate the receiving antenna.  
Increase the separation between the equipment and receiver.  
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
Consult the dealer or an experienced radio/TV technician for help.  
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference.  
(2) This device must accept any interference received, including interference that may cause undesired operation.

WARNING:

This product can expose you to chemicals known to the State of California to cause cancer.
