MUSIC BOXING MACHINE

140mm

Please read the user manual before using

FC CE

The image shows the top view of the Music Boxing Machine. It is an octagonal black device with five boxing gloves arranged in a circle. Each glove has a blue LED light ring. In the center is a small black display screen showing '120' and two icons. The device is surrounded by a pink border. Dimensions are indicated: 200mm width and 140mm height. The text 'MUSIC BOXING MACHINE' is at the top, and 'Please read the user manual before using' and 'FC CE' are at the bottom.

Operation:

On/Off : Long press to Power on and Power off.

 : After power on, short press Bluetooth button to power on/off bluetooth. Search Bluetooth and connect the device that named with "Bluetooth"

Mode : 9 light flashing modes, each corresponding to the division of the training area, displaying P01-P09

Speed : 9 speeds, higher number means light flashing faster accordingly, displaying H01-H09

 : Long press the Speed button to decrease the volume

 : Long press the Mode button to increase the volume

Three Installation Methods

Method 1: Velcro

Stick the short Velcro on the back

Stick two long Velcro strips vertically on the wall

Then paste the machine and Velcro together

Method 2: EVA sticker

Tear off the sticker

Stick to the machine back and tear off the sticker on the other side

Stick the machine on the wall

Method 3: Bracket installation

Stick the short double-sided tape on the back, and installation of fixed bracket

Adjust the angle, install on the wall

Installation is complete

Tips:

- 2 long Velcro strips allow you to adjust the height of the machine according to different people's heights.
- The distance between two long Velcro strips should be the same as the distance between two short Velcro strips to better fix the machine.
- Velcro or EVA sticker installation is recommended for marble, tile and other smooth wall surfaces.
- Rough wall installation is recommended to be fixed with nails and expansion screws.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

*RF warning for Mobile device:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
