

Questions and answers

1. Why does the screen flash and how to adjust it?

The flash screen phenomenon is normal, which is determined by the characteristics of the electronic ink screen, because the electronic ink screen will leave residual particles on the screen during the page turning process, so the ink screen needs to be refreshed globally (flash screen), but it can be adjusted to the speed mode, the system will pre-load the next page content to reduce the frequency of the flash screen.

2. The WiFi network connection is not successful

- ① Cancel the network save and try to connect again.
- ② Connect the mobile phone hotspot for test.
- ③ If the mobile phone hotspot can be connected normally, please check the router settings.

3. Network book transfer not successful

Please confirm that the reader and your computer are in the same local area network. Then open "My Computer" and type in the full FTP address generated in the reader.

4. Unable to charge, unable to boot

- ① Try to replace the data cable or charger.
- ② Charge for 1 hour first, and then press the power button for 4-8 seconds to test. If the above method cannot solve the problem, please contact the after-sales service.

Warning:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
 - (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

NOTE: This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter

SAR statement

This device meets the government's requirements for exposure to radio waves. This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government. The SAR limit set by the FCC is 1.6W/Kg. For body-worn operation, this device has been tested and meets the FCC RF exposure guidelines for use with an accessory that contains no metal and positions the device a minimum of 0mm from the body. RF exposure compliance with any body-worn accessory that contains metal was not tested and certified. And use of such body-worn accessory should be avoided. Accessory available in market and must be used to keep use distance 0mm from EUT to body-worn operation.

Model parameters

Resolution	800×480 (219PPI)
Screen	4.26 inches supports multi touch
Reading light	20 levels adjustable
CPU	XBurst® 2 core @1.2GHz
Store	32GB
System	OBOOK OS (Linux)
Battery Capacity	1200 mAh
Wi-Fi	802.11 b/g/n/ac/ax(Wi-Fi 6)
Bluetooth	Bluetooth5.4
Product Dimensions	125 mm×70 mm×8.25 mm

This product is sold without a power adapter. If the power adapter is used for power supply, the power adapter that has obtained CCC certification and meets the standard requirements shall be purchased for charging.

Note: There is a risk of explosion if the battery is replaced with the wrong type. Be sure to dispose of the used battery according to the instructions.
