WARNING

This product is not suitable for children aged 3 and under.

Do not look directly at the projector lens when the product is in operation to avoid eye burns.

Always handle the product with care and avoid touching the lens.
Before retracting the projector stand, ensure the lens is fully retracted to avoid damage.

Handle Strap: The handle strap is not a toy and should not be used for other purposes.

Power Adapter:
Use only the original power adapter provided;
Do not use the adapter to power other products.

Remote Control:
Remove the batteries (not included) if not in use for an extended period.

Cleaning Instructions: Unplug the power supply before cleaning.
Wipe the surface gently with a dry cloth to remove dust or stains.

Component Inspection: Regularly check the Remote Control, Power Adapter, Casing, Stand and other components for damage.

Disassembly Prohibition: Do not disassemble the product by any means.

For any questions, contact customer service promptly.

-usb and click it, then to locate and play the file.

*Note: HDMI cables and USB drives are not included as standard.*

Product Usage

## Method 1: Projector Standalone Drawing Mode

After powering on, go to the homepage and launch the Art Drawing APP. Select an interesting theme, then press the "OK" button on the device or remote control to enter the image template. Press the "OK" button again to start the "Step-by-Step Guidance" for tracing drawing.

Method 2: Assisted Drawing via Caydo Art Design App

1. Connect your device and the projector to the same Wi-Fi network first.
2. Download and install the Caydo Art Design App:
2.1 For iOS users: Search and download from the App Store.
2.2 For Android users: Search and download from Google Play.
3. On the homepage of the Caydo Art Design App, select the "T3 Art Projector" and follow the prompts to connect to the projector.
4. Once your device and projector are successfully connected, you can choose materials from the App or select an image from your device to trace.
5. Tracing an image:
5.1 Tap the camera button (you will need to enable permissions to access the camera and photos).
5.2 Select an image from your device's photo library or take a photo using the App's built-in camera.
5.3 Choose a filter effect.
5.4 Tap the "Confirm" button to transfer the image to the T3 Art Projector.
5.5 Start tracing the image on paper.

Press the power button to turn on the projector, and the indicator light will change from red to blue.

Rotate to focus until the image becomes clear.

Product Storage

1

Rotate the focus ring to ensure the lens is fully retracted.

2

Hold the device with one hand and push the ball-shaped handle backward with the other hand.

3

Hold the hinge with one hand and push the ball-shaped handle forward with the other hand.

4

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

*RF warning for Mobile device:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
