This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.</div>	<div>Maintenance Instructions</div> <div>• Keep the device dry and clean regularly and especially after prolonged use as moisture and dirt can build up underneath the band and can cause skin irritation.</div> <div>• Do not wear the device too tight but make sure that the bottom sensor is lightly in contact with your skin and there is a gap of about one finger's width between the wrist strap and your wrist.</div> <div>• Do not use household cleaners to clean the device. Use soap-free cleaners instead.</div> <div>• For stains that are difficult to remove, it is recommended to scrub with alcohol.</div> <div>• The device is not suitable for diving, swimming in the sea or sauna; it is suitable for swimming pool, shower (cold water) and swimming in shallows.</div> <div>• Keep it away direct sunlight, high temperatures or humid conditions as it may damage the band over time.</div> <div>Safety Instructions</div> <div>• Do not disassemble the battery on your own.</div> <div>• Do not expose NoiseFit Diva to extremely high or low temperatures. The excessive temperature during charging could cause heat, smoke, fire or deformation of the battery or even explosion.</div> <div>• Charge the battery in a cool, ventilated room.</div> <div>• Do not open, crush, bend, deform, puncture or shred secondary cells or batteries. In the event of a battery break or leak, prevent battery liquid contact with skin or eyes. If this happens, immediately flush the areas with water (DO NOT RUB THE EYE) or seek medical help.</div>	<div>Do not short-circuit. Short-circuiting may damage the battery. Short-circuiting can occur when a metallic object, such as a coin, causes the direct connection of positive and negative terminals of the battery.</div> <div>Keep the batteries out of children's reach and in a safe place to prevent danger.</div> <div>Do not place the batteries in the water.</div> <div>Do not use your product in a sauna or steam room.</div> <div>Do not dispose off batteries in the fire as that may cause an explosion. Dispose off used batteries in accordance with your local regulations. Do not dispose it as household waste.</div> <div>Use only the charging cable supplied to charge the battery. Do not charge for more than 24 hours.</div> <div>Do not attempt to repair or maintain the watch yourself, service and maintenance should be performed by authorised technicians only. Any device failure should be referred to our after-sales service personnel.</div> <div>To prevent device damage, accessory damage and device failure, always protect the device against strong impact or shock.</div> <div>CUSTOMER SUPPORT</div> <div>If you experience any problem with the watch, it may be fixed by restarting your watch. For any assistance, please reach out to us at support.gonoise.in</div>

# FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ▶ -Reorient or relocate the receiving antenna.
- ▶ -Increase the separation between the equipment and receiver.
- ▶ -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ▶ -Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
