## Baby Car Rearview Mirror

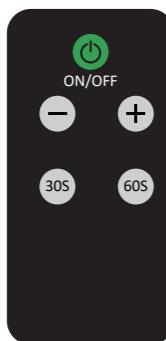

### BATTERY INDICATOR

- Red Light: Battery is below 20%—please charge immediately.
- Yellow Light: Charging in progress.
- Green Light: Battery is fully charged.

### REMOTE CONTROL INSTRUCTIONS

- ON/OFF:**  
Use the remote control to turn the LED light on and off, or press the button on the back of the mirror.
- Adjust Brightness:**  
With 7 levels of brightness, use the "+" and "-" buttons on the remote control to select the appropriate brightness level.
- Timer Mode:**  
Select "30s" or "60s" on the remote to activate the timer. A 3-seconds breathing light will confirm signal receipt, and the light will turn off automatically after 30 or 60 seconds based on your selection.

**Memory brightness:** The brightness in always-on mode and timer mode will be set to the last used brightness level; after the battery runs out and the power is restored, the default brightness is 40%.

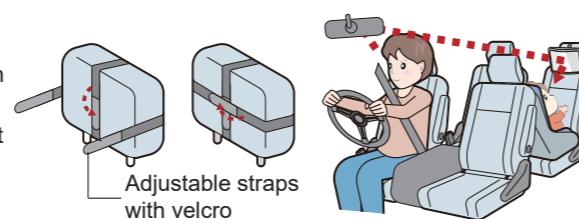

### INITIAL USE GUIDE

1. Remove the battery insulation tab from the remote control.
2. Peel off the protective film from the acrylic mirror.
3. It is recommended to connect the power source for the first use.

### INSTALLATION GUIDE

1. To install, detach the magic tape strap and wrap it securely around the headrest opposite the infant's seat, ensuring a tight fit by fastening the magic tape clasp.
2. Pull the strap to fix the mirror to the headrest, ensuring it stays in place during travel.
3. Sitting in the driver's seat, adjust the mirror to the best angle that allows for a clear and convenient view of the infant during driving. (Optionally, one can ask for assistance from a helper if available.)

**Note:** Please ensure all components are correctly installed and securely fastened to ensure driving safety and the infant's comfort.

### CHARGING THE MIRROR

Use the included 10-feet charging cable to connect the mirror to a power source for charging.

### POWER SUPPLY

The mirror can be powered by the built-in 3000mAh rechargeable battery or via the included 10 feet charging cable connected to your vehicle's USB-A port or a power bank.

### SPECIFICATION

Product Size	11*8*1 inch (Mirror: 10*6.5inch)
Product Material	ABS & Acrylic Lens
Battery Capacity	3000mAh (DC5V/1A)
Charge Cable	10-Feet USB-C to USB-A
LED Lights	37 LEDs
Color Temperature	<3500K
Remote Control Battery	CR2032
levels of brightness	10%,25%,40%,55%, 70%,85%, 100%

### ATTENTION

1. Read all instructions before use.
2. Avoid exposing the product to direct sunlight, high temperatures, heating above 60°C, or incineration.
3. Do not place on wet surfaces.
4. Do not open, crush, or subject to impact or modification.
5. Discontinue use if you notice any unusual smell, heating, or other abnormalities.
6. Dispose of responsibly by recycling; do not discard with household waste. Use designated recycling systems or contact the retailer for proper disposal.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

#### FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1)This device may not cause harmful interference, and
- (2)This device must accept any interference received, including interference that may cause undesired operation.
