

User Manual

A: Microphone

B: USB plug

C: Volume +

D: Volume -

E: Microphone Off

F: ON/OFF

G: Led ON/OFF

To power on the headset: keep the ON/OFF button pressed until the "POWER ON" audio prompt.

To connect the headset in Bluetooth mode: after powering the headset on, it defaults to Bluetooth mode. Follow your device's Bluetooth pairing method, the headset appears as "Lexip X Ubisoft". Once paired, the "Connected" audio prompt plays.

To connect the headset through the USB dongle: plug the dongle in a free USB slot on the computer or console. Once the headset is switched on, press the ON/OFF twice rapidly, you will hear the "Wireless mode" audio prompt. Headset and dongle will automatically connect: the dongle LED will turn blue; you will hear the "connected" audio prompt.

To connect the headset with the wire: plug the USB plug in the headset. Plug the jack 3.5mm on the audio player.

To charge the headset: Plug the USB in the headset and the USB A on a USB powered plug. The led change to red. When fully charged, the led turn to blue.

Maintenance and Repair

- While using, please read the suggestions to comply with the warranty terms to prolong the using life.
- Keep the device dry and not place it in a damp place as this may affect the internal circuitry.
- Do not place the device in the sun or in a place with high temperatures which will shorten the life of electronic parts and deform plastic parts.
- Do not leave the device in a cold place as it may cause the internal circuit board damage.
- Do not attempt to disassemble the device.
- Do not drop, strongly vibrate or hit the device with hard object, as this may damage the internal circuitry.
- Do not scratch the surface with sharp object, as this may damage the case.
- If the device does not work properly, please contact the support team.

⚠ This symbol identifies safety and health information in this product guide. Read this guide for important health and safety information for the product you have purchased.

⚠ WARNING - BEFORE INSTALLING AND USING THIS UNIT, READ THE INSTRUCTIONS PROVIDED CAREFULLY. THE MANUFACTURER CANNOT BE HELD RESPONSIBLE FOR DAMAGE OR INJURY DUE TO IMPROPER INSTALLATION OR USE. ALWAYS KEEP THESE INSTRUCTIONS WITH YOUR UNIT FOR FUTURE REFERENCE.

SAFETY INSTRUCTIONS

1. Safety of Children and Vulnerable Persons - ⚠ WARNING: Choking Hazard

Keep the product, accessories and packaging parts out of the reach of children and pets to avoid accidents. Use of this product should be under adult supervision.

2. General safety and use - **⚠ WARNING:** Risk of accident, injury to health - **⚠ WARNING:** Cables and cords

Do not use the product in an environment requiring special concentration, such as on the road. Only use the product in environments where Bluetooth is allowed. Do not use the product if it is obviously defective or if it makes loud and unusual noises. Do not listen at high volumes for long periods of time to avoid hearing damage. The product generates magnetic fields that may interfere with pacemakers, implantable defibrillators and other implants. Always maintain a distance of at least 10 cm between the product and objects sensitive to magnetic interference. Keep the product dry. Normal operating temperature is 5°C to 40°C, lower or higher temperatures may damage the product. Clean the product only with a soft dry cloth. Do not leave the cables within the reach of children and pets. Do not attempt to repair this product.

3. Installation

Do not install or connect a damaged device. This product is intended to work with the Bluetooth protocol in connection with game consoles, computers and cell phones. Follow the connection instructions in the user manual and the devices you wish to connect it to.

4. Electrical safety - **⚠ WARNING:** Risk of injury, electric shock fire, burns or property damage.

Observe all necessary precautions when connecting this product to a charging device.

5. Battery Safety - **⚠ WARNING:** Risk of explosion, fire, heat release, smoke or gas release.

Do not heat the product or batteries to a temperature above 40°C. Do not dispose of in fire. Avoid exposure to sunlight. Do not charge the product outside of normal operating temperatures. Dispose of the product in a recycling container. Do not puncture the batteries If used improperly, the batteries may leak. Do not replace the batteries.

15.19 Labeling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

FCC RF Radiation Exposure Statement:

1. This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
 2. This equipment complies with RF radiation exposure limits set forth for an uncontrolled environment.
- This equipment should be installed and operated with minimum distance 5mm between the radiator and your body.
