USER MANUAL

English

Available on the **App Store**

This manual is designed to help you fully understand how to use the product for your benefit.

Unleash the power of effortless tracking with our cutting-edge Bluetooth wireless device, seamlessly integrated with the 'isearching' application. Simply pair it with your frequently misplaced belongings and experience a new level of convenience. Within an impressive Bluetooth connection range of approximately 25 meters (75 feet with no barriers), locate your belongings effortlessly. Activate the beep feature through the app, make your phone ring with a double-click, or even snap photos using the button located on the device. Say goodbye to the hassle of searching for keys, bags, remote controls, wallets, and phones – our product ensures you find what matters most with unparalleled ease.

When the product is out of your phone's Bluetooth range, dual alerts are received on both the device and your phone, ensuring you never miss a beat. Plus, the 'isearching' app will mark the last known location on the map. To unlock this unparalleled feature, simply activate the 'Phone Alarm While Lost function' in the settings. Safeguard your belongings and phone within a certain range, receiving timely reminders if you forget to take them along. Bid farewell to worries – our product ensures you stay connected and protected, every step of the way.

To use the app seamlessly, make sure your device meets these following requirements:

1. Bluetooth 5.2
2. iOS (8.0 or later) or Android (4.4 or later)

APP DOWNLOAD AND INSTALLATION

You can download the 'Bluetooth anti loss device' app from:1. App Store
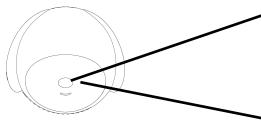

Power On:
Press and hold the tracker's button for at least 3 seconds to turn power on. You will hear two beeps to indicate the device is turned on.

Power Off:
Press and hold the tracker's button for at least 3 seconds to turn power off. You will hear a long single beep to ndicate the device is turned off.

GETTING STARTED

Launch the app on your smartphone. Take a moment to check the tutorial page, and don't forget to tap 'Allow' to turn app's notifications on.
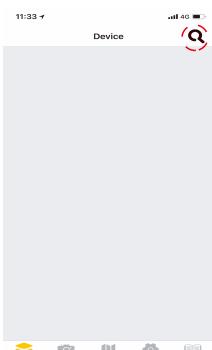

Tap here or use the drop-down menu to add devices.
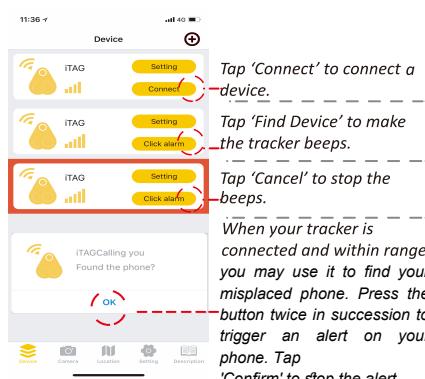

Tap 'Connect' to connect a device.

Tap 'Find Device' to make the tracker beeps.

Tap 'Cancel' to stop the beeps.

When your tracker is connected and within range, you may use it to find your misplaced phone. Press the button twice in succession to trigger an alert on your phone. Tap 'Confirm' to stop the alert.

Go to settings

Slide to the left to delete a device
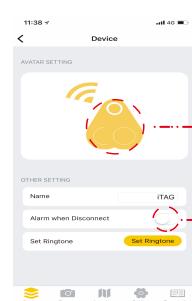

You can change the device name (e.g., Wallet, Key, Dog, etc.). Capture and save a picture for future reference.
