### Accessories Included

6

### Using Steps

1. Connect the DVD player DC Adapter ⑳. Please fully charge the DVD player when first use (About 5 hours).
2. Turn on ㉔ the DVD player.
3. Open the lid ⑬ that holds the CD/DVD.
4. Music or movies play automatically.

### Q&A

1. Why does the DVD player display "NO CD"?  
Placed incorrectly. Reset the disc and check that it is flat.
2. Why is the screen blank or streaked?  
The battery is low. Turn off the DVD player and charge it. Or make sure the AV connection is correct or incorrect.
3. Why can't the DVD player be turned on?  
Please make sure the switch on the right is set in the ON position. When the power is low, the DVD player will be unable to turn on. Fully charge the DVD player, then try to turn it on.
4. The remote control doesn't work.  
The remote sensing area is on the right side of the DVD player. The remote control needs to be aimed at the sensing area. As the picture shows.
5. No sound from the DVD player.  
Clean and reset discs. Press the mute key again. Set the audio input and output correctly.
6. Stuck when playing a disc.  
Turn off the DVD player for 1-2 minutes. Turn on it again.

7

### SETTING

7. Why can't the DVD player read CD-ROM and DVD-ROM?  
CD-ROM and DVD-ROM are used on computers. The DVD player can't read CD-ROM and DVD-ROM.

8. Why is the DVD player not reading my disc?  
The DVD player does not support Blu-ray discs. Please ensure the lens of the disc is clean and avoid touching it to prevent disc reading malfunctions.

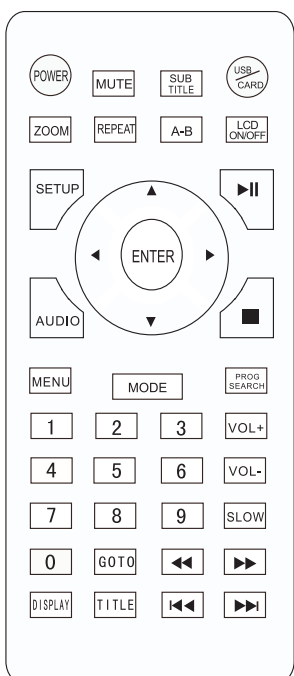

9. Why can't the DVD player play video?  
The maximum resolution of RMVB is 1280\*720. The maximum resolution of AVI/MP4 is 720\*576. The video files higher than the maximum resolution, the DVD player only has sound but no image. Please use conversion software to convert the resolution of video files.

A-B button(A-B repeat): Press it to mark the start and press it again to mark the end. The DVD player will play the marked section repeatedly. Third time press will cancel the repeat and resume normal playback.

8

### FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
- Reorient or relocate the receiving antenna.  
- Increase the separation between the equipment and receiver.  
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

11

-Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
