How to Use

Note: The remote control can only operate the product when both the device and the remote control are turned on.

Thrusting Button

Press to activate thrusting function. When the thrusting function is on, press the same button to switch through different frequencies (3 speeds, 4 patterns). Long press to turn off the thrusting function.

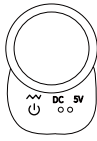

Power Button

Long press to turn on the remote controller. The power button illuminates when turned on, and pressing it will make the button light flash once.

Vibration Button

Press to activate vibration function. When the vibration function is on, press the same button to switch through different frequencies (3 speeds, 5 patterns). Long press to turn off the vibration function.

Function Button

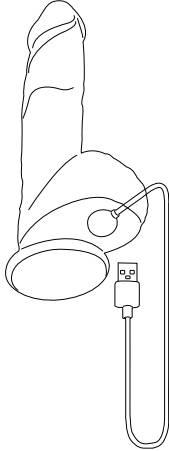

After turning on, press to switch between vibration frequencies (3 speeds, 5 patterns), and long press to turn off vibration. The button light will illuminate when turned on and flash once when pressed.

Power Switch Button

Long press to power on/off. After powering on, it enters standby mode. Press to toggle between thrusting frequencies (3 speeds, 4 patterns).

Charging

● Charging: Attach the magnetic end of the provided USB charging cable on two steel charging points of the dildo, then plug the USB end to any computer's USB port or USB socket.

● During charging, the button light will flash, and it will remain steady when fully charged.

● Do not submerge the charging port in water for an extended period or apply pressure to force liquid into the charging port.

● If left idle for 10 minutes with no activity, it will automatically power off. While in the off state, press the power button to reset the expansion motor.

● The use of a condom and lube with this device is highly recommended.

Caution

Clean and Storage

● Always clean this product thoroughly before and after each use.

● This product is water-proof design, you can wash it under a faucet, but do not immerse it in water for a long time.

● Do not use alcohol-based, corrosive detergents or disinfectants to clean this product.

● It is recommended to clean it with bath cream or soap, then wash it with water.

● After cleaning, please use a towel to dry the product and well store it.

● Do not put this product in hot water or hot steam, high temperature will damage the product.

Notes

Wash it with water/
warm water

Mild Detergents

Shade&Dry
Cool/Dry

water to wash it

Do not immerse
the product in water

Do not clean it
with alcohol

Lower than 60°C

Avoid direct sunlight

Keep it away from
children

This device complies with part 15 of the FCC Rules.Operation is subject to the following two conditions:
(1)This device may not cause harmful interference ,and
(2)this device must accept any interference received,including interference that may cause undesired operation.

Specifications&Information

Specifications

● Item No.:EVO-120

● Product Name:SWING MASTER

● Measurements: 87x226x40mm

● Net Weight: 446g

● Materials: Silicone+ABS

● Rated Voltage: 3.7V

● Rated Current: 950mA

● Charging Method: DC charging

● Water-proof: Daily

● Duration: 50 mins

● Charging Time: 2 hours

● Max. Noise: lower than 60dB

● Color: Flesh/Tan

● Production Function: Vibration, thrusting and wriggling

● Modes: 8 patterns of vibration, 7 patterns of thrusting and wriggling

● Packaging Includes: Main product, user's manual, charging cable, remote controller.

● Place of Origin:PRC

● Executive Standard:Q/DGTR 002-2021

英文说明书

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
