

100mm × 100mm

LED Lamp

A line drawing of a lamp. It features a conical shade at the top, a vertical stem, and a horizontal arm extending from the stem. At the end of the horizontal arm is a circular disc with a small dot in the center.

Charge

MADE IN CHINA

Product Name :	LED lamp
Product Number :	AMZ-TBL-036
Rated Input :	5V-2A
Rated Power :	5W
CRI :	≥90
Main Material :	Metal+Acrylic
Color Temperature :	3000K-6000K
Switch :	Touch Button

Technical drawing of the lamp showing dimensions and components:

- Overall height: 13 inch
- Touch Switch
- Lampshade
- Type-C Charging Port
- Base
- Light Pole
- Dimensions: 4.5 inch (top diameter), 3.5 inch (lampshade height), 3.9 inch (base diameter), 6.5 inch (light pole height)

Plug the USB cable into the port for charging, the charging time is about 4-6 hours, the red light is on when charging and off when fully charged. Under 100% brightness, the LED wall light can work continuously for about 10 hours; under the lowest brightness, it can work continuously for about 40 hours.

Note: When not in use for a long time, the battery will enter into a dormant state and need to be recharged several times to stimulate the battery activity. It should be placed in a place with normal temperature, low temperature will affect the performance of the battery and reduce the capacity and service life.

Dimming function: stepless dimming (5%-100%);
Color temperature: warm white light, warm light, white light,
3000K-6000K;
Control mode: touch switch, click to switch the light mode, long
press to control the light brightness.
Using high quality wrought iron lamp body + acrylic translucent
lampshade material, and after painting (gold for electroplating
process) processing, anti-scratch and anti-corrosion.

100mm × 100mm

1. This product has a timer light off function, can be selected through the remote control to choose to turn off the light in 30/60/120/180 minutes;
2. This product has a light memory function. When the light is turned off and then turned on again, the light pattern and brightness will remain the same as before the light is turned off;
3. Please use the remote control within 10 meters without any obstruction.

1. Please confirm whether it meets the working voltage of the lamp before use. Using unsuitable voltage may damage the product and bring safety hazards;
2. Do not dispose of the product as household waste, and dispose of electronic products in accordance with local laws;
3. The ambient temperature used is -15°C-50°C;
4. Regularly charge the product to prevent the lamp from being charged after the battery is exhausted;
5. When cleaning the surface of the lamp body, please use a soft cotton dry cloth to prevent scratching the surface of the lamp body;
6. Do not use abrasive or corrosive cleaners to clean the surface of the lamp body, so as not to corrode the surface of the lamp.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance, such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.

If you are not satisfied or like the product, or it wears out after receiving it, we promise to replace it with a new one for free or give you a full refund.

*For authorized repairs, misuse, collision, abuse, fluid ingress, etc.
 *Has exceeded the warranty period;
 *Man-made damage.
