

Attention:

2.1 After the machine is powered off, do not perform the firmware upgrade operation. Charge the battery beforehand.

2.2 When the machine is powered off and plugged in, there will be a charging icon.

2.3 When the USB is plugged into the computer, the machine will automatically charge. When the power of the machine is low, don't do any operations.

Suggestions:

When the user uses and upgrades for the first time, the machine is charged to 100% of the power to make sure the battery level is relatively accurate.

D. Basic parameters:

Model	SP1015A
Processor	A133
DDR	2GB
Flash	32GB
WiFi	802.11 b/g/n
Bluetooth	Support
Camera	Front:2MP Rear: 5MP
Gravity Sensor	Support
Display Screen	10.1" 800X1280 IPS
Touch method	Capacitive multi touch
Battery	6000mAh
Audio input	Built-in MIC
Audio output	Plug 3.5mm Left/Right channel
Speaker	BQ1,1.0W
USB	Type-C USB
Function keys	On/Off button Volume+ Volume-
Power supply	5V=2A
Micro SD / TF card	Support
System	Android

★ All parameters are subject to physical condition.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Specific Absorption Rate (SAR) information:This Tablet PC meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health. FCC RF Exposure Information and Statement the SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: Tablet PC has also been tested against this SAR limit. This device was tested for typical body-worn operations with the back of the Tablet PC kept 5mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain an 5mm separation distance between the user's body and the back of the Tablet PC. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

Introduction

This operation guide is for the user to understand and famalliarize with our products as soon as poss ible. Here,we briefly introduce the key layout and de finition of our products in a graphical way ,and give some basic instructions for some basic operations.

A. The key layout and definition

- Key function description:
- Power button: Press and hold 3S to switch on/off, short press again to wake up screen.
 - Volume button
 - Earphone seat
 - USB charging interface / USB seat / OTG seat: USB line interface; OTG line interface, transfer inside hard disk, keyboard, mouse.
 - TF Card Block
 - Front camera
 - MIC
 - Rear camera
 - Speaker.
