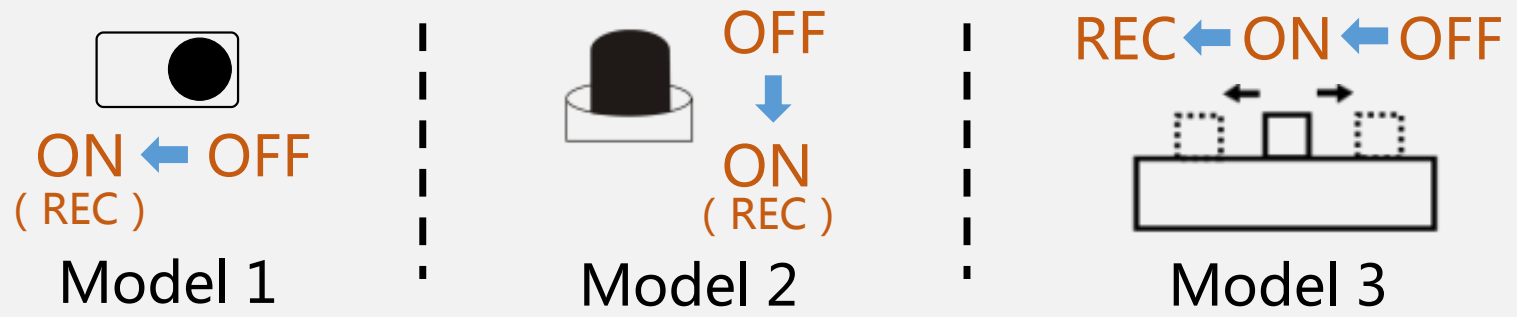
Use this device to record audio. When not connected to a mobile phone, turn the switch to the REC position to enable recording.



Charge

It is recommended to use the original data cable to connect the computer for charging. If using adapter, please use power adapter with charging current 1A or below to charge, otherwise it may damage the machine or cause danger. When charged, the dictaphone flashes red; when fully charged, the dictaphone always flashes blue.
If the product is not used for a long time, please charge and discharge at least once every three months to prevent battery damage.

Function parameters

Product type	Smart APP recorder	8GB	Can be saved around 67.5hours
sampling rate	48KHz	16GB	Can be saved around 135hours
Bit Rate	256kbps	32GB	Can be saved around 270hours
Recording Format	WAV	64GB	Can be saved around 540hours
Play Format	MP3/WMA/WAV	128GB	Can be saved around 1080hours

Because the product recording effect and sound quality more clear parameters higher, so the recording file is relatively large, please extract in time, the company is not responsible for the loss of data.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
