- Do not place other items on the top of the product, which may affect the normal work of the product.
- The product can only be used on the special accessories provided by our company

Precautions and Troubleshooting Causes for networking failure:

- To ensure smooth networking of the product, please ensure that the whole machine is installed in a place with strong wireless network.
- This equipment contains a radio transmitting module with model approval code CMIITID:2020DP6462 and device model: WBR3.

Service guide

Product parameter

Due to product improvement, the following parameters are subject to change, mainly the product nameplate
The recommended ambient temperature is 4~40 degrees Celsius. Can not be lower than 2 degrees Celsius, otherwise the purification liquid icing damage the product

Model number	
Rated voltage	12V ===
Rated power	8.5W
Drum capacity	60L
Product size	540*540*625mm
Product package size	565*565*580mm
Litter Container Capacity:	15L

Fault self-test

Note!

The following is the common judgment and inspection, if simple treatment cannot be eliminated, please send to the maintenance network or Call the customer service hotline for consultation. Please do not disassemble and repair by yourself to avoid danger or Cause damage to the product.

Problem	cause	Treatment method
Networking failure	The product is not energized.	Electrify the product
	No network exists in the place where the product is located	Check whether there is a network
	The phone did not turn on Bluetooth	Turn on Bluetooth
	WiFi is not a 2.4G signal	WiFi is adjusted to 2.4G signal
The product is energized, and the cylinder does not rotate	The drum package is not removed	Remove the foam from the top of the cylinder and the pearl-cotton from the bottom
The cleaning button turns yellow and the light flashes	The anti-clamp tube is sheltered	Cut off the power first, check if the anti pinch tube is obstructed, and wipe it clean with a damp tissue
	The cylinder does not rotate when the product is powered on (Top cover or bin not reset)	Reset the top cover or bin
	Press the cleaning button once, and the drum can rotate (The purifier is not installed properly or the remaining amount of purification liquid is insufficient)	Reinstall the purifier or replace with a new purification solution
	Press the cleaning button once, the rotary drum cannot rotate (The collection bin is full, and the sensor is sheltered)	1. Check if the collection bin is full; 2. Check whether the top of the Bin bag is protruding; 3. Check if the fecal collection bin sensor is sheltered by dirt
Cleaning button yellow light permanently on	The infrared radiation at the entrance has been disturbed	Check if there are foreign objects blocking the entrance

 The "environmental protection life" of this product under normal conditions described in the manual is 10 years, which is quoted from the "Guidance Opinions on the Environmental Protection Life of Household Appliances" of China Household Electrical Appliances Association.

Skills:

1. The machine is placed on a flat hard ground, and there are four black parts on the bottom that should be in contact with the same plane

2. Make sure the cat weighs more than 1kg, otherwise it may cause the cat to be injured.

FCC Statement This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Zhejiang Zhaohong New Material Technology Co., Ltd.

Warranty instructions

Maintenance service guarantee

In case of product failure, please contact our local distribution service network or customer service center. The litter box is guaranteed for one year. Consumables are not covered by warranty, please purchase them by yourself after use.

The start date of the warranty period is subject to the invoice of the product. The following conditions are not covered by the warranty:

1. Damage caused by improper use, storage and maintenance of consumers.
2. Damage caused by disassembly and repair without the company's designated maintenance department.
3. The model of the invoice is inconsistent with the model of the maintenance product or altered.
4. No valid invoice.
5. Force majeure causes damage.
6. We are not responsible for the quality accidents caused by the non-standard gifts or accessories of our company.
7. This product is used for non-household purposes, the whole machine warranty will be implemented for half a year.
8. Failure caused by human or improper use is not covered by warranty.
9. Please use the spare parts provided by our company. Old parts cannot be reused.
10. Failure or damage caused by forced use of the product beyond normal conditions is not covered by the warranty. For products not covered by warranty, our customer service center is still willing to serve you.

Product implementation standards:

GB 4706.1-2005 FCCID : 2BDY1-CH-1CB006

Note!

All contents in this manual have been checked. If there is any typographical error or misunderstanding in the content, please refer to the company. If there is any technical improvement, it will be included in the new manual without prior notice. If the appearance and color of the product are changed, the physical object shall prevail.
