Justification for Re-use of Radio Test Results

We, Devic Earth Private Limited believe that the conducted signal test data on original reports provided by SIMCom Wireless solutions Limited (Product Name: LTE/GNSS Module; Model No: SIM7600G-H; FCC ID: 2AJYU-8PYA007 approved on December 09, 2021, and IC: 23761-8PYA008) and approved on November 09, 2023 for manufacturer SIMCom Wireless Solutions Limited can be re-used for the following reasons:

1. Applicant has built in the radio module according to the specific radio module integration guides.
2. No changes have been made on the radio module.
3. Re-test the conducted power for spot check verification, the radiated spurious emission and re-evaluated the RF Exposure.
