Dear Sir/Madam,

This transmitter was designed to operate in following frequency ranges: 400-480MHz
To aid equipment authorization in other countries which accept the United States FCC Grant for Certification, Vertel Digital Private Limited is requesting that the FCC lists the frequencies 400-480MHz, under FCC Rule Parts 90 on the FCC Grant.

Vertel Digital Private Limited attests that the Digital FM Transceiver will not be marketed to USA users with the frequency band which is not allowed by the rule Parts 90. Per the FCC's KDB634817 guidance, as an alternative to listing the exact frequencies, we acknowledge that it's a violation of the FCC Rules if this device operates on unauthorized frequencies.

Please contact me if you require any additional information.
