# How to use wireless adapter

- ① Start the car and wait for the car system to be loaded.
- ② Connect the Wireless Carplay/Android auto adapter to the USB-A or Type-C port in your car. please be sure plug the adapter into the port that is for wired apple carplay or android auto.
- ③ Open WiFi and Bluetooth on your iPhone/Android smart phone and find the Bluetooth name  
**Click on Pair; Click on 'Allow'; Click on Use Carplay or 'Use Android Auto'.**
- ④ You are ready to enjoy wireless CarPlay or wireless Android Auto.

## Please note

- ① The wireless Carplay Android Auto adapter working principle is uses Bluetooth to establish a pairing between the iphone/ Android Smartphone and the vehicle, then switches to using WiFi to maintain the wireless connection .After the Bluetooth pairing is successful, the iPhone/Android smartphone WiFi will automatically connect to the adapter's WiFi, and then disconnect the Adapter Bluetooth connection by default for carplay and automatically connect to your vehicle Bluetooth by default for Android auto.
- ② Please ensure wireless Carplay Android auto Adapter power on.
- ③ Please ensure that your car models supports wired carplay/Android auto.

## **| FQA**

### **1.What is the WiFi password for the Wireless Carplay Adapter?**

We need to connect the bluetooth,not WiFi.After Bluetooth matching is successful,WiFi will automatically connect. So no need WiFi password.Make sure your WiFi is turned on and unoccupied when pairing.

### **2.After pairing Android Auto adapter, can not start Android Auto function or compatible/ can not recognize the USB...**

(1) If your car has use the android auto function for the first time,please use your data cable to connect your phone to activate android auto through a wired method.

(2) Please make sure that android auto on your android phone is the latest version.If not,please log in to your google play account to update to the latest version.

(3) Please turn off the Bluetooth of your phone and enter the mobile application management to search auto to clear the auto cache.After the cleaning is completed,Restart the adapter and reconnect to Bluetooth.

### **3.Audio input or output issues : calls rejected or forwarded to voicemail/ no play sound / microphone not working/music playback interrupted or paused /voice functioning abnormally..**

(1) Please check if the iPhone/Android smartphone's Bluetooth connects to other devices such as Earphone, watch.....If so Please disconnect other auto-connected Bluetooth devices or turn off the Bluetooth directly for Carplay and connect to your vehicle Bluetooth for Android Auto.

(2) When on a call, check that your "Audio" output option is Carplay/Android Auto.

## **4. When use the wireless carplay Android Auto Adapter whether Mobile Phone can use other internet wifi**

When enjoying the wireless Android Auto Adapter function, the phone's WiFi will be occupied by the adapter, So you can not use other internet at the same time, You only can use your phone SIM card internet.

## **5. Unable to automatically reconnect**

(1) Please make sure that the Bluetooth and WiFi functions of your mobile phone are turned on and the Bluetooth is not occupied when you get in the car.

(2) Clear the pairing record, restart the phone and repair the Adapter.

## **6. Can the adapter be paired with multiple phones**

The adapter can be paired with maximum five phones, but only one device can be connected at a time, if you would like to pair it with a new phone, please cancel the current connection first. Please note, by Bluetooth function default, the adapter's system will only auto-connect back to the last used phone.

## **7.Can't find the bluetooth and WIFI of the wireless Carplay Android Auto Adapter ?**

Please make sure wireless CarPlay/Android auto adapter is power on and be sure plug the adapter into the port that is for wired carplay/ Android auto.

If convenient , Please test it with another Phone. If only a specific phone cannot find the Bluetooth or Wi-Fi of the adapter please try to reset the network and bluetooth settings of this Phone and then restart the phone once , if the same problem happens on other Phone , it will be defective,please let us know.

## **8.Whether Wireless Carplay Android auto Adapter support Youtube Video**

Can not support Youtube for wireless carplay.

Can support Youtube for wireless Android Auto.Please follow the operation to open Google Chrome and type.

"AAADAPK"-----Download APK-----Open "AAAD" ----download" Carstream" -----Open"Carstream" and go to setting ,choose" enable desktop mode",and then you could enjoy the video from Youtube by wireless android auto Setting Video.

# **Firmware update**

- ◎ The adapter works properly, it means the current version is suitable for your car. It is not recommended to update the firmware.
- ◎ Only try this solution when the problem you cannot solve from the "FAQ".

1. Insert the CarPlay/Android Auto adapter into the USB communication port of the car.

2. Link the carplay/android auto box to the mobile phone and enter the carplay/android auto interface.

3. Open the mobile web browser and enter the address "192.168.1.101".

4. Click "Online Upgrade" on the OTA page.

5. During the upgrade, do not exit the OTA page, so as not to interrupt the upgrade process.

6. When the upgrade progress reaches 70%, it will automatically exit the carplay/android auto interface, when the upgrade is completed, the OTA page will prompt the upgrade to be completed.

7. After the upgrade is completed, re-plug the carplay/android auto box to display the upgraded version, at this time, you need to delete the original Bluetooth link, and then re-establish a new Bluetooth link and use this product normally.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
