# Power Bank Specification

(Model: P602W)

Thank you for purchasing this product! The brief description of the product assures you to operate freely, fully embodies the value of this product. Please read carefully before use.

## PARTS INFO

1. Power indicator
2. Type-C Input/Output
3. Power Button
4. Magnetic attraction surface
5. Type-C Line Input/Output
6. Lightning Line Output

(折好正面)

(印刷反面)

## Function Description

- Connect the charging cable to the charging device and the other end to the Type-C input interface of the mobile power supply to charge.
- After it is connected, it will automatically start charging the mobile power supply. The LED light will flash when it is charging; When it is fully charged, the LED light will stop flashing.

## Frequently Asked Questions

- Please check whether the power adapter is suitable, whether the connector is used, and whether the adapter is normal. It is recommended to choose a suitable brand of power adapter for charging.

## Product specifications

Type-C/Type-C Line Input	DC5V~3A 9V~2A 12V~1.5A
Type-C/Type-C Line Output	DC5V~3A 9V~2.22A 10V~2.25A 12V~1.5A
Lightning Line Output	DC5V~2A
Wireless Output	15W Max
Battery Type	Lithium-Ion Polymer battery
Power Status	Four power LED lights

## Power display:

Power indicator	One light on	Two light on	Three light on	Four light on
Power	≤25%	≤50%	≤75%	≤100%
Magnetic Wireless Charging Indicator				
Solid Magnetic Wireless Charging Function Is Enabled				
Flashing Metal Foreign Object Detected/Overtemperature				

## Matters Needing Attention

- Please charge the battery at least once every 3 months if it does not be used for a long time. During the use of this device, it will be slightly hot, but it is normal.
- Always keep the product dry and do not use chemical agents for cleaning and scrubbing. Please protect our environment, recycle this device at the designated location.
- Children or persons who are not equipped to use this device alone must use this device under the supervision of an adult.
- Do not bump, disassemble, pierce, crush, or expose this device to moisture.
- Do not apply this power bank to devices that do not meet the output parameter requirements, it may cause malfunction or fire.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
