User Instructions

Please read the instructions before use:

●The company reserves the right to modify the content of this notice without further notice. Under normal circumstances, some functions are different in specific software versions.

●The product should be charged for more than 2 hours before use, but avoid long-term charging in an unmanned environment when charging.

●Please automatically attach the magnetic charging cable to the charging port of the bracelet.

●Please use the input voltage: 5V/1A or 5V/2A charging head, with the original charging cable provided by the manufacturer.

●Before using the product, please download the login application to your mobile phone and set your personal information.

●You cannot wear a watch to take a hot bath. The temperature of the bath water is relatively high, which will produce a lot of water vapor. Moreover, water vapor is a gas with a small molecular radius. It is easy to penetrate from the gap of the watch

shell. When the temperature drops, it will condense into liquid water droplets again, which can easily cause the internal wire of the watch to short-circuit, damage the watch board, and then damage the watch.

●It is forbidden to charge with a car charger (the car voltage is unstable when the car is turned on and off).

●It is forbidden to use a fast charging multi-port charger to charge mobile phones and watches.

APP download login

●How to download the APP "OnWear Pro":

1. Apple phones can download it in the App Store.

2. Android phones can download it in Google play store and App Store.

3. Or scan the QR code in the watch to download the APP (compatible with: IOS12.0 and above /Android6.0 and above).

●To install the APP, please register and log in according to the prompts on the interface, and you need to turn on Bluetooth.

●Scan the code on the APP device interface to bind the watch. After the binding is successful, the BT binding interface pops up on the phone. Please click to allow Bluetooth pairing, and the watch calls and other functions can be used normally.

Telephone

Phone function: dial -up, contact, call records, you need to link BLE and BT to use

Motion data

Swipe the touch screen from the right to left, enter the sports data interface, and check the data of the day: the number of steps, distance, calories.

Please read this manual first to ensure safe and correct use:

●The data of this product is for reference only for health management. Please do not use it as medical data. If you find abnormal physical data, please refer to the hospital test.

●The waterproof level of the watch is IP68. You can use it normally in life scenes such as washing hands and raining. Do not put the watch in hot water, do not press buttons underwater or dive deep, and do not contact the watch with corrosive liquids to prevent damage to the watch. The waterproof function is not permanent, and the protective function may decrease due to daily wear and tear.

●Liquids such as water stains and sweat may irritate the skin. After exercise, you can loosen the strap appropriately or take off the watch for a while to let the skin breathe and rest, and clean

the watch in time and dry it before wearing it.

Product parameters

Waterproof level: IP68

Battery capacity: 300mAh

Synchronization method: Bluetooth

Resolution: 466*466

Display:1.43AMOLED

Working time: about 7-10 days

Working temperature: -10℃～ 50℃

Packing list: host, charging cable

Compatible system: IOS 12.0 and above, Android 6.0 and above

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Product name: Peps 1R

Product model: A2502

Manufacturer: Shenzhen Fission Intelligent Co., Ltd.

Address: Room 820-822, 8th Floor, Building B, Yousong Technology Building, No. 108 Donghuan 1st Road, Songhe Community, Longhua Street, Longhua District, Shenzhen，Guangdong，China.

Contact Person: Austin Peng Email: austin@aiwr.com Tel: +8613418455528

Frequency Range: 2402-2480MHZ

Max. output Power: -0.74 dbm   (This power is EU power)

SIMPLIFIED EU DECLARATION OF CONFORMITY

The simplified EU declaration of conformity referred to in Article 10(9) shall beprovided as follows:Hereby, Shenzhen Fission Intelligent Co., Ltd. declares that radio equipment type Peps 1R (A2502) is in compliance with Directive 2014/53/EU, and this product isallowed to be used in all EU member states.The full text of the EU declaration of conformity is available at followingThis product can be used across EU member states.

BATTERY Warning：CAUTION:RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS
