About Wala Smarty Interactive Storyteller

Thank you for choosing the Wala Smarty Interactive Storyteller.

This product needs to be used with Wala Smarty Audio Character.

Random interactive points will appear during the story playback, when the user is required to communicate with the partner in the story through the form of dialog. We hope it can bring you an interesting and novel experience.

Please read these instructions carefully before use.
Let's start your own story journey together!

Warnings and safety instructions

CAUTION-ELECTRIC TOY:Not recommended for children under 6 years of age. As with all electric products, precautions should be observed during handling and use to prevent electric shock.

Please keep this user manual in a safe place as it contains important information about the product and its use.

Please read all safety instructions before using the Starter Set.

Wala Smarty and its suppliers assume no responsibility for any damage or loss resulting from the use of this guide.

WARNING:
CHOKING HAZARD-Small parts.
Not for children under 6 yrs.

WARNING:
All packing materials, such as tape, plastic sheets, removeable tags and desiccant are not part of this toy and should be discarded for your child's safety.

WARNING:
All Wala Smarty items contain inaccessible, strong magnets. Please keep them away from medical components such as defibrillators, shunts or pacemakers as well as from magnetic sensitive products such as magnetic data carriers, credit cards or computers.

Safety instructions

Charging Safety:

Be sure to connect to a power outlet that meets national standards when using this equipment.
Please select a 5V power adapter to avoid damage to the device.

Usage environment:

The Wala Smarty is designed for home use and is not splash- or drip-proof. Do not drop the unit on hard surfaces and do not expose the unit to excess moisture or immerse it in water.

Keep the unit out of direct sunlight and away from any direct heat sources.

Avoid use in extreme temperatures
(below 0°C or above 40°C).

Make sure the Wala Smarty is placed on a firm surface, away from edges, to prevent dropping.

Warranty

1-Year Warranty

The original purchaser for this unit is provided with a 1-YEAR Warranty. The warranty begins on the date of purchase. For the first year, coverage is provided for both parts and labor on warranty repair services. All shipping fees incurred, the cost of accessories after the first year, and labor fees associated with out of warranty repair work are the customers responsibility.

Not Covered Under Warranty

We DO NOT offer warranty for products that have been bought secondhand or were resold. Issues of replacement and refunds on units purchased less than 30 days from an authorized dealer must be addressed to the dealer directly. If the products purchased from an authorized dealer are after 30 days from the date of purchase, please send the units to us for service and repair.

We DO NOT cover the cost of repairs and replacements due to misuse by the owner , improper maintenance, and/or lost units. The warranty is void if the unit has been altered or an unauthorized person has damaged the unit while attempting repair work.

Procedure for Repair Work

If the unit is malfunctioning, please refer to the 'Q&A" in the manual before sending it back for service. A copy of the sales receipt showing the purchase date may be required before warranty work is initiated. Please include a brief explanation outlining the problem, and include your name, address, city/state/zip code, daytime phone number, evening phone number, and email address.

Compliance FCC - USA

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

CAUTION: Modification or changes to this equipment not expressly approved by the manufacturer may void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to

try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
