P3 PRO

# USER MANUAL

# How to Use Your P3

Fully charge your P3 before first use. After that, it's simply a matter of plug-and-play; and with your Qi-compatible device, it's all about play without the need for any plugs.

# Operation

## Power Modes

- TURN ON** Press the power button once
- TURN OFF** Press the power button consecutively 3 times
- AUTO OFF** If not used, output shuts down in 30 seconds

## Wireless Charging

Turn on, lay flat with the charge icon up and place your phone on top of the P3.

**NOTE** *Wireless charging only works with Qi-compatible devices*

## Warnings

For a fast, safe charge use genuine InfiniCore cables.  
Poor quality cables can damage your devices.

-  Do not drop or bump the unit.
-  Do not burn, dispose in fire or expose to high temperatures.
-  Do not leave the unit plugged in overnight.
-  Do not immerse in water or get the unit wet.
-  Do not use any charger that is deformed or corroded

**Improper use may cause injury or damage your unit.**  
**KEEP THIS UNIT AWAY FROM CHILDREN**

## FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.
