IMPORTANT SAFETY INFORMATION:

This device is designed to function as a portable soothing sound machine. Parents are responsible for choosing the appropriate volume and sound settings for their child. Do not place it directly on the baby's ears. Consult your child's pediatrician before using any sound machine. It is not a toy and should not be used for teething. Do not charge the device near your child. Avoid using it in or near water, and do not use it if the plastic casing is damaged or hot. Never attempt to disassemble the device. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

Portable. Dreamy. Anywhere. Anytime.

Why choose us?

I am the founder of this device and a mother working in the AI field. Both of my children suffer from "infant colic and neurodevelopmental sleep disorder," and my husband and I often feel collapsed because of their crying. I discovered that there were no optimized solutions for the lifestyle of new parents and working mothers, so this sleep sound machine was born.

Our team consists of AI entrepreneurs, pediatricians, lawyers, financial executives, and IT engineers. By collaborating with the community, we incorporate the needs of mothers into our product development. Our "Sleep Sound Field" technology and "Zero Distortion" collection technology create sound that is delicate, tranquil, and lifelike, helping both babies and parents sleep peacefully. With Bluetooth 5.0 technology, our device also transforms into a speaker, allowing mothers to enjoy their quiet time.

Our mission is to help mothers worldwide become warm, independent women, ensuring that every mother no longer struggles with putting their baby to sleep, and every baby can quickly fall asleep naturally. We redefine soothing sleep experiences, offering high-quality rewards for both mothers and babies.

Enjoy VIP

Service By Activating Your Warranty Card

Scan the QR code (The QR code will be invalid after 7 days), Activate the warranty card (Activate within one week to get free new product experience) and you will get:

1. Get product accessories for free.
2. The product has an extended **one-year warranty**.
3. Enjoy **one-to-one after-sales service**.
4. **If the product has any defects, it can be replaced free of charge.**

We hope you and your baby happy and healthy. Thank you for choosing us. We hope to provide you with the best service. Feel free to let us know how we can improve product and service you better!

FCC Statement

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. FCC

Radiation Exposure Statement:

This equipment complies with ISSED radiation exposure limits set forth for an uncontrolled environment. The device has been evaluated to meet general RF exposure requirement.

This transmitter must not be located or operating in conjunction with any other antenna or transmitter.

Note : This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance

with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.
