## Quick Reference Guide

To help you get the most out of this device, please scan the QR code above to obtain detailed product information and operating instructions.

### Safety Instructions

Refer to the safety instructions before installing or operating the device.

- Use only accessories specified or provided by the manufacturer (e.g., dedicated charger, batteries, etc.). Replacing it with an incorrect battery type may compromise safety measures.
- Avoid using the PawPal in extremely hot, cold, dusty, or humid environments.
- Disposing of the battery in a fire or hot oven, or mechanically crushing or cutting the battery may result in an explosion.
- Leaving the battery in extremely hot surroundings, such as sunlight, fire, or hot surfaces, may result in an explosion or leakage of flammable liquid or gas.
- Avoid dropping or forcibly placing the PawPal on a hard surface. This may damage the screen or internal electronics and void the warranty.
- The power plug should be kept in a state where it can be disconnected at any time to avoid emergencies.
- Use the device at an ambient temperature between 0° C and +40° C (32° F to 104° F). Store or transport the device at ambient temperatures between -10° C and 45° C (14° F to 113° F). Low or high temperature conditions may cause the device to change its behavior to regulate its temperature.
- To prevent possible hearing damage, do not listen at high volumes for long periods of time.
- Electrostatic discharge is normal and can occur in electronic devices. Although it is not life-threatening, it can damage files or affect memory and its contents.
- Do not open, dismantle, or attempt to repair your PawPal by yourself. Doing so will void the manufacturer's warranty.
- PawPal functionality, hardware, software, and warranty information may be improved or modified by the manufacturer or its respective owners and are subject to change without notice.

### FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

### SAR statement :

This device meets the government's requirements for exposure to radio waves. This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government. The SAR limit set by the FCC is 1.6W/Kg. For body-worn operation, this device has been tested and meets the FCC RF exposure guidelines for use with an accessory that contains no metal and positions the device a minimum of 0mm from the body. RF exposure compliance with any body-worn accessory that contains metal was not tested and certified. and use of such body-worn accessory should be avoided. Accessory available in market and must be used to keep use distance 0mm from EUT to body-worn operation.

### ISED Canada Statement:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:  
(1) this device may not cause interference and  
(2) this device must accept any interference, including interference that may cause undesired operation of the device.

Radiation Exposure: This equipment complies with Canada radiation Exposure limits set forth for an uncontrolled environment to maintain compliance with IC's RF Exposure guidelines. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

### Déclaration du Canada:

Ce dispositif contient un (S) émetteur (S)/ récepteur (S) exempté (S) de licence qui respecte l'innovation, Science et développement économique Canada a exempté le ou les RSS de licence. L'exploitation est soumise aux deux conditions suivantes:  
(1) cet appareil ne doit pas causer d'interférences et  
(2) ce dispositif doit accepter toute interférence, y compris toute interférence pouvant entraîner un fonctionnement indésirable du dispositif.  
Exposition au rayonnement: cet équipement est conforme au rayonnement Canada Les limites d'exposition fixées pour un environnement non contrôlé afin de maintenir la conformité avec les lignes directrices d'exposition aux RF d'IC. Ce dispositif et ses antennes ne doivent pas être co-localisés ni fonctionner en conjonction avec une autre antenne ou un autre émetteur.
