# Sleep Speaker Sleepbot instructions

operation instructions

## I Bluetooth connection method

To turn the machine on and off, press and hold the middle button for three seconds. By default, the display screen will display the power interface and listening mode.

At this point, the device will enter the Bluetooth pairing state, turn on the Bluetooth of the mobile phone to search for QY08, and click the Connect button (if the device is not connected to Bluetooth within 10 minutes, it will turn off automatically).

Screen saver of the entire system for 30 seconds; press any key to illuminate the screen and display the electricity interface and "lightning" symbol.

Volume plus: Click the volume "+", Long press to switch to next song.

Volume reduction: click the volume "-", Long press to switch to previous song.

Click the middle button to pause/play.

Triple-click the middle key to switch between Chinese and English prompts.

**Press the "-" button three times to turn off the prompt sound**

## II. mode switching

Double-click the center button to reset the number on the display screen and simultaneously jump into the sleep adjustment timing shutdown mode.

The "+" key for adds time, while the "-" key for subtracts time (in 5 minute increments).

Press the middle key briefly to adjust the value to confirm, or to automatically confirm the value

after five seconds and save the display for ten seconds.

Double-click the "+" key to toggle between the display interfaces for remaining power and shutdown time.

Alternate between listening to music and reading a book.

Double-click "-" to toggle between listening to songs and books.

The "S" character is displayed on the digital screen in the book listening mode, but the "S" character is not displayed in the song listening mode.

## III. The real machine charging

To better guarantee the charging life, please use a 5V-1a charging head. It is forbidden to use fast charging head to feed. Device charging.

Display for charging: During charging, the lightning symbol on the display screen jumps while the electric quantity value is also displayed.

The display indicates 100, and the battery is full when the heartbeat stops. Ultra-long standby time of 150 days and up to 15 hours of continuous playback.

## IV. Warm tips

If the volume is turned down to 10 or less, no sound can be heard by the person next to you. Soft sound, no sound leakage. The correct way to place the device without disturbing others is to place it at the base of the pillow and sleep with your ear on your side above the device for best results.

## V. Specifications and parameters

Bluetooth version: 5.3

Battery capacity: 400mAh lithium polymer

Product size (mm): 100\*28\*13

Product weight (g): 35.5

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
