

# Light Belt

## MS-001 series

This product uses USB power supply. You can connect the USB LED Strip to the power supply with USB interface (such as computer, mobile phone charger, Power Bank, USBsocket, etc. ) After power on, the light will be on, and the default is 7 color cycle change colour.

Three Control mode :

- 1.Button on the LED Strip : press once to switch a luminous mode , and press 3 seconds to turn it on or off.
- 2.Remote control : use the infrared remote control to press the required function key to control the LED Strip.
- 3.App control : after downloading the App from the mobile phone , turn on the Bluetooth function of the mobile phone and turn on miracles star

0 / 1 in the upper left corner is the Bluetooth connection , 0 is not connected and can be connected manually . 1 is already connected.The hexagonal symbol in the upper right corner is the debugging color sequence, usually RGB . If the color controlled is different from the actual , you can change other sequences.In the mode interface : there are dozens of luminous colors and dynamics for you to choose from , and the speed and brightness can also be adjusted. In microphone mode : you can change color according to the rhythm of ambient sound , and also select different modes and sensitivity .

### Technical Information

length	5meters
Rated power	8w
USB power supply	5v
Usage time	15000h
Color temperature	Dream color RGB
Control distance	5m
Types of Controlle	Apply Bluetooth Remote control 24 key
Protection index	8

## ***FCC Statement***

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
