

80mm

80mm

RF Exposure

The SAR limit of FCC is 16 W/kg(Head) averaged over one gram of tissue and 4.0W/kg(limb) averaged over ten gram of tissue. Device has also been tested against this SAR limit. The testing distance of head and limb are 5mm.

IC regulatory conformance

IC:33165-MBTC01

This device complies with CAN ICES-003 (B)/NMB-003(B).

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

Cet appareil est conforme à la norme CAN ICES-003 (B)/NMB-003 (B).

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

(1) l'appareil ne doit pas produire de brouillage, et

(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

RF Exposure

This device has been tested for compliance with IC SAR values at a typical operating near the body. To ensure that RF exposure levels below the levels tested, use accessories with this equipment to maintain a minimum separation distance of 0 cm between the limb and head of the user and the device. These accessories should not contain metallic components. It is possible that the accessories used close to the body that do not meet these requirements are not consistent with the SAR limits and it is advisable to avoid using them.

Ce dispositif a été testé pour la conformité avec les valeurs SAR à un fonctionnement typique près du corps. Pour assurer que les niveaux d'exposition aux radiofréquences en deçà des niveaux testés, utiliser des accessoires avec cet équipement pour maintenir une distance de séparation minimale de 0 cm entre les membres et la tête de l'utilisateur et l'appareil. Ces accessoires ne doivent pas contenir des composants métalliques. Il est possible que les accessoires utilisés près du corps qui ne répondent pas à ces exigences ne sont pas compatibles avec les limites SAR et il est conseillé d'éviter de les utiliser.

- Disposal of the Product into fire or a hot oven, or mechanically crushing or cutting of a Product, that can result in an EXPLOSION:
-Leaving the Product in an extremely high temperature surrounding environment that can result in an EXPLOSION or the leakage of flammable liquid or gas; and
-The Product subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

After-sales Service and Support

1. Warranty

The product shall be covered by a 12-month warranty, effective the day after the product is signed for.

2. Warranty Standards

If the product exhibits one or more faults as outlined in the Product Performance Fault Table, you are entitled to a complimentary maintenance service, subject to verification by the MorningBlues after-sales service center.

3.Product Performance Fault Table

Performance Fault

- Unable to power up
- Abnormal display, such as screen tearing
- Broken panel glass
- Unable to boot
- Buttons do not work
- Touchscreen Unresponsive

Application Method

If the product meets the warranty requirements, please contact us via email at support@morningblues.com or submit a warranty application form on our website <https://www.morningblues.com/> -contact-us.

4. Non-warranty Standards

- Failure or damage resulting from improper use by the user (such as failure to observe the precautions in the instructions), improper maintenance or improper storage (including operational errors, liquid infiltration, incorrect insertion and extraction, scratches, bumps, wrong input voltage, use of non-brand accessories, etc.).
- The entire machine or accessories are beyond the free warranty period.
- Fair wear and tear (such as foot pad wear, cover nick, etc.).
- Damage caused by disassembly by the user or by unauthorized maintenance point.
- Damage caused by natural disasters or other force majeure factors.

Application Method

Should you require paid repair services, please contact us via email at support@morningblues.com or submit a repair form on our website <https://www.morningblues.com/contact-us>.

Product Info

Instructions

Power On: Hold the power button for 5 seconds.
Power Off: Hold the power button for 5 seconds.
Tap to turn the screen on/off while the device is powered on.

Specifications

Brand Name: MorningBlues
Product Model: MBTC01
Net Weight: 36 g
Product Dimensions: 56 mm × 56 mm × 9 mm
Connection Method: Bluetooth (5.3 with BLE support)
Packaging List: Touchscreen*, User Manual*
Rated Voltage: DC 5 V
Rated Current: 500 mA

Precautions

Handle with care and protect the glass panel to avoid scratches, wear, or breakage.
Avoid spilling drinks, cosmetics, or any liquids on the product to prevent short circuits.
Non-professionals are prohibited from opening the device for maintenance or repairs.
In order to protect the environment and human health, do not dispose of this product as ordinary household waste. This product contains electronic components and batteries that need to be properly disposed of in accordance with local regulations.

Regulatory Information

FCC ID:281QA-MBTC01

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
