

Bluetooth Earphone ERAZER QT88

Instructions and Warranty Card

Federal Communications Commission Notice
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

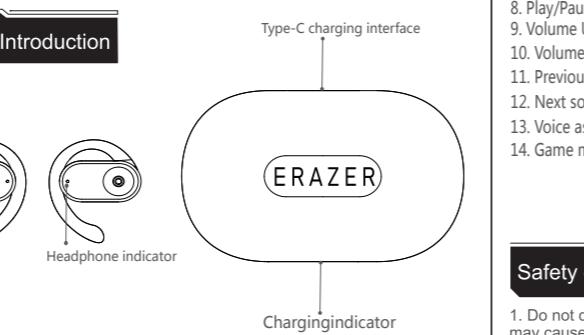

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement

The device can be used in portable exposure condition without restriction.

Safety guidelines

1. Do not disassemble or modify the equipment for any reason, otherwise it may cause the headphones to malfunction or burn out;
2. Do not let the device come into contact with liquid and get wet, otherwise it may cause serious damage to the device;
3. Do not place the device in an environment where the temperature is too low or too high (below 0 ° C or above 45 ° C);
4. Do not use the equipment during thunderstorm weather, as thunderstorms can cause abnormal equipment operation, signal interruption, and other phenomena.

Danger Warning:

Headphones contain batteries and should not be exposed to environments such as sunlight, fire, or similar dangers. Headphones contain batteries, and there is a risk of explosion if the batteries are not removed properly. Only batteries of the same or equivalent type can be used for replacement.

When children use this product, an adult must supervise from the side. Do not place this product in environments with corrosive substances or strong magnetic fields.

Do not collide, throw, or puncture the product to avoid falling, squeezing, or bending it.

Name and content of harmful substances in the product

In order to comply with the relevant provisions and requirements of the "Management Measures for the Restriction of the Use of Hazardous Substances in Electrical and Electronic Products" (Order No. 32 of the Ministry of Industry and Information Technology of the People's Republic of China), the hazardous substances in this product are classified by components and declared as follows:

| Component Name | Harmful substances | | | | | |
|--------------------------|-----------------------|-----------------------|-----------------------|------------------------------|--------------------------------|--------------------------------------|
| | lead (Pb) | mercury (Hg) | cadmium (Cd) | hexavalent chromium (Cr(VI)) | Polybrominated biphenyls (PBB) | Polybrominated diphenyl ether (PBDE) |
| Circuit board components | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Shell/hard components | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

This table is prepared in accordance with the provisions of SJ/T 11364. O: The content of the corresponding substance in the component or material of the component is below the limit requirement specified in GB/T 26572. X: Indicates that the content of the hazardous substance in at least one average material of the component exceeds the limit requirements specified in GB/T 26572.

The harmful substances contained in the product are caused by the current technological conditions and the inability to identify alternative substances which comply with the requirements of China's "Management Measures for the Restriction of Hazardous Substances in Electrical and Electronic Products" and fall within the scope of EU ROHS exemption. Special consideration has been given in the design of the product to ensure that the appearance components are made of non-toxic and harmless environmentally friendly materials, so that consumers will not come into contact with harmful substances under normal use and will not cause harm to the human body.

10 Electrical and electronic products sold within the territory of the People's Republic of China will be printed with the "Environmental Protection Use Period (EPuP)" symbol, with the number in the circle representing the normal environmental protection use period of the product.
