

Possum

FCC compliance statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The End user must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

⚠ WARNING

- **INGESTION HAZARD:** This product contains a button cell or coin battery.
- **DEATH** or serious injury can occur if ingested.
- A swallowed button cell or coin battery can cause **Internal Chemical Burns** in as little as **2 hours**.
- **KEEP** new and used batteries **OUT OF REACH** of **CHILDREN**
- **Seek immediate medical attention** if a battery is suspected to be swallowed or inserted inside any part of the body.

Android, Bluetooth, and Locations

Android apps using Bluetooth Low Energy (BLE) require location access to be enabled. This is a requirement of Android 11 and below and Google to allow BLE devices (like the Possum) to connect.

We do not track your location. In fact, we don't ask you for any personal information so location tracking would be of no use anyway since using the Possum app is completely anonymous.

iOS devices are designed differently and don't require location services for BLE to work, hence there is no need to give the Possum app access to location services on an iOS device.

Installation Instructions

Congratulations on the purchase of our Possum.

To get started, you will need to download the Possum app to your mobile device. The easiest way to do this, is to scan the QR code below; on the serial number sticker supplied with your Possum; or to search for "Possum" in your relevant app store.

Installation Video

App Download

1. Once you have the app installed, open the Possum by squeezing the two tabs on the side, gently lifting the lid slightly and sliding the lid up, off the base.
2. Remove the battery pull tab to activate your Possum.
3. Each possum has a unique serial number which is required to connect the app to the Possum. The serial number is printed under the battery, inside the device.
4. When you open the Possum app for the first time, enter the serial number of your Possum to connect.
5. Next, find a suitable place where you want to install the Possum. We recommend as close to the front of the caravan as possible, but still relatively easily accessible.
6. Once you have your spot, place the Possum in that spot to check connectivity.
7. Bring your vehicle up to the caravan, and while sitting in the driver's seat, open the Possum app, click on the gear icon in the top right hand corner, and select connection status. There you will be

able to see the signal strength. As long as you have at least two bars of signal, everything will work well.

8. If you do find connection issues, you will need to find a different location for the Possum. Sometimes, all you need to do is move it a little to the left or right, but other times you will need a new spot.

9. Once you are happy with the connection, take the Possum and place it on a counter top inside the caravan, making sure the top of the Possum is facing the front of the caravan.

10. Using a wheel jack and the app, level your caravan in the roll direction.

11. Next, using the jockey wheel, level the caravan in the other direction with the help of the Possum.

12. Now that your caravan is perfectly level, take the Possum from the counter, and using either two screws or the supplied mounting tape, attach the Possum in the location you selected at the start of this process.

13. Finally, with the Possum securely mounted, click the gear icon in the top right-hand corner and click "calibration". Select the orientation of your now installed Possum in relation to the caravan and click calibrate.

The Possum is now fully installed and calibrated with your caravan.

LIMITED WARRANTY

This limited warranty is provided to the original end user purchaser ("you") of a Adventurous BD Possum ("Product"), by:-

Adventurous BD (ABN 96 747 561 563) ("Adventurous BD")
PO Box 287, Waterford Q 4133
Telephone: 1300 66 22 38
Email: sales@adventurousbd.com.au

The warranty applies to claims notified by you within 2 years of the date you purchase the product, "Warranty Period". However, despite this, the warranty ceases when the Product is rented, sold or otherwise disposed of by you.

Adventurous BD warrants that, during the Warranty Period, the Product will, with normal use, be free from faulty parts, manufacture or workmanship.

Subject to these terms and you complying with the claims procedure, the product will be repaired with free parts and labour where there is a fault with the product which is a consequence of a manufacturers defect in materials or workmanship. All replaced parts or products become the property of Adventurous BD.

This clause relates to goods supplied in Australia only:

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other

reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

You have rights and benefits under the consumer laws in your jurisdiction. Without detracting from these rights or benefits, Adventurous BD excludes all liability in respect of the Product for any other loss which is not reasonably foreseeable from a failure of this Product, which may include liability for negligence, loss of expenditure associated with the Product and loss of enjoyment.

This warranty is valid only for Products that are purchased new and unused:

- (a) in Australia or New Zealand; and
- (b) sourced from Adventurous BD or its distribution channel.

Please visit adventurousbd.com.au/limited-warranty/ for full terms.

PRODUCT INDEMNITY

You will indemnify and hold harmless Adventurous BD or its officers, directors, employees, affiliates, agents, licensors, and contractors from and against any claims, losses, damages (actual and consequential), suits, judgements, allegations, investigations, litigation costs and solicitors fees of every kind and nature incurred by you or any third parties through you arising from or in any way connected with the use of the Adventurous BD Possum or associated mobile app.
