

The image shows the front cover of the KDD User Manual. At the top left is the KDD logo. To its right, the text 'English' is enclosed in a blue rounded rectangle. Below this, the title 'User Manual' is written in a large, bold, black font. The central part of the cover features a photograph of the 'RGB Headphone & Controller Stand with Wireless Charging'. The stand is black with green and red RGB lighting. It has a base with a circular wireless charging pad and a vertical column with three adjustable shelves. A power cable is plugged into the back of the base. At the bottom, a blue rounded rectangle contains the text 'Model: KDD-752'. Below this, the full product name 'RGB Headphone & Controller Stand with Wireless Charging' is written in a bold, black font.

- Handhülle nur weniger als 5 mm dick.
- Je dicker die Hülle ist, desto langamer wird die drahtlose Ladezeit sein.
- Am besten ist es, ohne Hülle zu laden.
- Kabellose Ladeleistung bis zu 10W.

Bedienungsanleitung

- Stecken Sie den Stecker auf der Rückseite des Ständers in die Steckdose.
- Nachdem die Verbindung erfolgreich hergestellt wurde, können Sie die Lichtstake drücken, um das Licht einzuschalten.
- Drücken Sie die Lichtstake, um den Farbmodus zu ändern. Dieser Ständer bietet 9 Lichteffekte-Modi, darunter 7-farbiges schnelles Blinken, 7-farbiges atmen des Lichts und einen einfarbigen Lichtmodus: rot, grün, blau, hellblau, weiß, weiß schaffen eine fantastische Spielatmosphäre. Halten Sie die Lichtstake für 2 Sekunden gedrückt, um das Licht auszuschalten.
- Kabelloses Aufladen kann z.B. iPhone und Airpod ohne lästige Kabel aufladen.
- Der Ständer verfügt über 2 USB-Ladeports und 1 Typ-C-Anschluss zum Aufladen von Tablet/Laptops/portablen Ladegeräten oder anderen Geräten (Hinweis: Der Typ-C-Anschluss kann nicht zum Aufladen des iPhone verwendet werden).

1. Eclairage de téléphone d'une épaisseur inférieure à 5 mm uniquement.
2. Plus l'étui est épais, plus le temps de charge sans fil sera lent.
3. La meilleure façon de charger sans fils est sans étui.
4. Puissance de charge sans fil jusqu'à 10 W.

Guide d'utilisation

1. Insérer la fiche située à l'arrière du support dans le port de sortie.
2. Une fois la connexion établie, vous pouvez appuyer sur le bouton d'alimentation pour allumer les lumières.
3. Appuyer sur le bouton d'alimentation pour changer de mode de couleur. Ce support offre 8 modes d'éclairage, dont un clignotement rapide à 7 couleurs, un éclairage respiratoire à 7 couleurs et un mode d'éclairage à une couleur : rouge, vert, bleu, violet, bleu clair, jaune, blanc, pour créer une atmosphère de jeu fantastique. Appuyer sur le bouton d'alimentage et maintenez-le enfoncé pendant 2 secondes pour éteindre la lumière.
4. La recharge sans fil permet de recharger l'iPhone et l'Airpod sans utiliser de câbles.
5. Le support dispose de 2 ports de charge USB et d'un port Type-C pour la recharge de téléphone/tablette/le charge portable ou d'autres appareils.

(ATTENTION : Le port Type-C ne peut pas être utilisé pour charger l'iPhone).

1. Solo per telefoni con spessore inferiore a 5 mm.
2. Più spessa è la custodia, più lento sarà il tempo di ricarica wireless.
3. Il modo migliore per ricaricare è senza custodia.
4. Potenza di ricarica wireless fino a 10W.

Guida al Funzionamento

1. Inserire la spina sul retro del supporto nella porta di uscita.
2. Dopo che il collegamento è riuscito, è possibile premere il pulsante di accensione per accendere le luci.
3. Premere il pulsante della luce per cambiare la modalità di colore. Questo supporto offre 9 modalità di effetto luce, tra cui 7 colori a lampeggio rapido, 7 colori a luce respiratoria e modalità di luce a singolo colore: rosso, verde, blu, viola, azzurro, giallo, bianco per creare una fantastica atmosfera di gioco. Tenere premuto il pulsante della luce per 2 secondi per spegnere la luce.

La ricarica wireless può caricare iPhone e Airpod senza bisogno di cavo. Il supporto è dotato di 2 porte di ricarica USB e 1 porta Type-C per la ricarica di telefoni/tablet/caricabatterie portatili o altri dispositivi.

(ATTENZIONE: la porta Type-C non può essere utilizzata per ricaricare l'iPhone).

1. Sólo para teléfonos de menos de 5 mm de grosor.
2. Cuanto más gruesa sea la carcasa, más lento será el tiempo de carga inalámbrica.
3. La mejor forma de cargar es sin funda.
4. Potencia de carga inalámbrica de hasta 10W.

Guía de funcionamiento

1. Inserte el enchufe de la parte posterior del soporte en el puerto de salida.
2. Después de conectar correctamente, puede pulsar el botón de encendido para encender las luces.
3. Pulse el botón de luz para cambiar el modo de color. Este soporte ofrece 9 modos de efectos de luz, incluidos 7 colores de parpadeo rápido, 7 colores de luz de respiración y modos de luz de un solo color: rojo, verde, azul, violeta, azul, amarillo y blanco para crear una fantástica atmósfera de juego. Mantén pulsado el botón de luz durante 2 segundos para apagar la luz.
4. La carga inalámbrica puede cargar el iPhone y los AirPods sin necesidad de cables.
5. El soporte tiene 2 puertos de carga USB y 1 puerto Tipo-C para cargar teléfonos/tablets/cargadores portátiles u otros dispositivos.

(ATENCIÓN: el puerto Tipo-C no se puede utilizar para cargar el iPhone).

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum 20cm distance between the radiator and your body: Use only the supplied antenna.
