正面

Functions

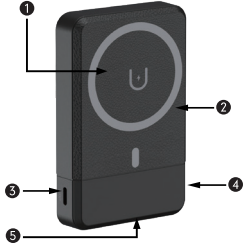

- Press the button once to activate the power.
- Press the button twice to deactivate the power.
- Activate the wireless charging for the watch by pressing the button once.
- Connect the C cable to the power bank's C port and the device for automatic output.

Side Note: The device supports automatic identification of load output for wireless charging of mobile phones.

Specification

1. C port Input: TYPE-C 5V3A;9V2A;12V1.5A 18Wmax
2. Single Output: TYPE-C 5V3A;9V2.2A;12V1.67A 20Wmax
3. Wireless Charge: 5W;7.5W;10W;15W 15WMax
4. Watch Wireless Charge: 2.5W
5. Total Output: TYPE-C+Phone+Watch: Total Output 15Wmax
6. Full of Time: Estimate 4.0h (5V/3A) / Estimate 3.0h (9V/2A) / Estimate 3.0h (12V/1.5A)

1. 15W iPhone Wireless Output
2. 2.5W iWatch Wireless Output
3. TYPE-C Input/Output
4. Key
5. Indicator Light

背面

The blinking light is a reflection of the battery's level of charge:

1. ○○○○ - Below 25%: The first light will flash.
2. ●○○○ - 26-50%: The second light will flash.
3. ●●○○ - 51-75%: The third light will flash.
4. ●●●○ - 76-99%: The fourth light will flash.
5. ●●●● - 100%: All lights will light up.

Discharging Indicator Status:

1. ○○○○ - Below 5%: The first light will flash.
2. ●○○○ - 26-50%: One LED will light up.
3. ●●○○ - 51-75%: Two LED will light up.
4. ●●●○ - 76-99%: Three LED will light up.
5. ●●●● - 100%: Four LED will light up.

Side Note: Flash when power ≤5%
No lights will flash when power is ≤0%

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
