Board-Component
View 1**

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, labeled 'View 2'. The board is rectangular with a blue plastic connector on the right side. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The board features various electronic components, including a large integrated circuit (IC) in the center, several smaller ICs, and numerous surface-mount components. The blue connector has multiple pins visible.
Solder Board-Component View 3	 A photograph of the same green PCB component, labeled 'View 3'. This view shows the opposite side of the board. The blue plastic connector is on the left side. The board is placed on the same blue textured surface next to the same black ruler. The components on this side include various surface-mount components and a large IC. The blue connector has multiple pins visible.

Solder Board-Component View 4	 A photograph of a small green printed circuit board (PCB) component, labeled '381' in black ink. The component is positioned on a blue textured surface. A black L-shaped ruler with white markings is placed next to it for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The PCB has various electronic components, including a small integrated circuit (IC) and several resistors. A white label on the bottom right of the PCB reads 'VXD1AG' and 'ALPINE ELECTRONICS'.
Solder Board-Component View 5	 A photograph of the same green PCB component from a different angle, showing the underside. The component is positioned on a blue textured surface. A black L-shaped ruler with white markings is placed next to it for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The underside of the PCB shows various electronic components, including a small integrated circuit (IC) and several resistors.
