

## User Manual

RE-GNT16X

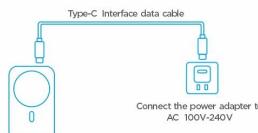

Thank you for buying this product!  
To ensure you the best usage, please carefully  
read this manual and read the manual of your  
Phone, Laptop or other Device.

2. Power Output : fits most digital electronic products , which is compatible with most mobile phones and other digital devices. Below is a simple charging diagram taking

3. Charge your device using the Type-C port

### Warnings

Improper use of the product may lead to battery malfunction or severe overheating, and may even cause fire or explosion. To avoid any damage to you and your property, please follow the instructions below when you use and store the product.

1. This is not a toy! Please place this product in areas that are not easily accessible by children. Do not allow children to operate this product, or accidents may occur.

2. Please charge this product with a charger approved by the local safety standards in case of danger or damage.

3. Do not apply pressure, and avoid collisions. The battery and circuit may be damaged if this product falls from a great height, experiences intense shocks, or is immersed in liquid; if so, please avoid using this product.

4. If this product suffers from deformation, leakage, or radical decline in performance, please stop using this product.

5. Please do not charge any device or recharge this product in places that may affect its heat dissipation, such as pants pockets, enclosed bags, beds, or couches. And ensure this product is not under any cover when operating. When charging other devices for prolonged periods, do not stack any device on top of this product, or it might affect its heat dissipation.

6. This product can not be disassembled, applied pressure ,pierced, short-circuited, immersed in liquid, disposed of in a fire, or exposed to a high temperature or heat source with a temperature greater than 140°F(60°C).

7. Do not place this product in areas with extremely high temperatures. Such as under direct sunlight or a vehicle with a very high interior temperature.

8. This product contains lithium batteries, do not disassemble it or danger or battery damage may occur.

### Attention

1. Please fully charge this device before using it for the first time.

2. The power banks have conversion efficiency, so the battery capacity of power bank is not equal to the rechargeable capacity.

3. Please choose an appropriate charger for recharging this product and suitable cables when charging other devices.

4. Please ensure some supervision is in progress when recharging this product, do not charge this product without any care.

5. Please remove the cable when done recharging this product or finished charging for any other device to preserve the product integrity.

6. If the indication does not light up after pressing the power button, please recharge this product

7. Please preserve this product with a battery percentage between 25%-50% for long-term storage. Place this product in a cool and dry environment. To slow down battery aging, avoid storing this product in an empty or full charge for long-term storage.

8. Please do not dismantle the product by yourself. Improper use or placement may compromise the service life or damage the product, to which outcome company will not bear any legal responsibilities nor offer any guarantee. Please understand.

9. Working temperature:

Non-tropical areas, 0°C to 35°C

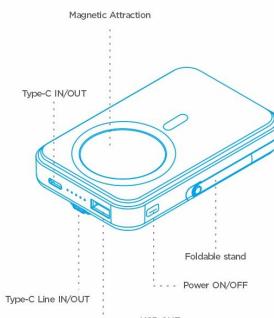

Storage ambient temperature 0°C to 40°C

### Specification

Capacity : 10000mAh 3.85V/38.5Wh

Type-C Input : 5V~3A 9V~2A 12V~1.5A

Type-C Line Input : 5V~3A 9V~2A 12V~1.5A

USB Output : 5V~3A 9V~2A 10V~2.25A 12V~1.5A

Type-C Output : 5V~3A 9V~2.22A 12V~1.67A

Type-C Line Output : 5V~3A 9V~2.22A

10V~2.25A 12V~1.5A

Wireless Charger : 5W/7.5W/10W/15W(Max)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning Please follow the above safety instructions otherwise it will cause fire, electric shock damage or other damage.

### WARRANTY SERVICE CARD

Warranty Feedback Form (check)

A. The charging is abnormal

B. The power button cannot be operated

C. The parts are broken or damaged

FCC WARNING

This device complies with part 15 of the [FCCRules](#). Operation is subject to the following two conditions: (1) this device may not cause harmful [interference](#), and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the [FCCRules](#). These [limits](#) are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TVtechnician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
